## Graf Flies Over New Mexico On Way To The East

Big German Dirigible, Carrying Passengers and Crew to Lakehurst, N.J., on Round-the-world Flight, Fights Head Winds on Voyage From Los Angeles.

Steins, N.M., Aug. 27.—The German dirigible Graf Zeppelin, bound for Lakehurst, N.J., from Los Angeles, left Arizona behind it and came into view over this New Mexico border town at 1:43, M.S.T., to-day. The great airship edged through a 4,300-foot high pass slowly with a head wind beating its nose.

Bowie, Ariz., Aug. 27.—With a head wind and ominous clouds sweeping its coast, the German dirigible Graf Zeppelin passed over here at 12:50 p.m. mountain standard time, to-day.

55 MILES AN HOUR  
Pantano, Ariz., Aug. 27.—The dirigible Graf Zeppelin flew over this village at 11:03 a.m., M.S.T., having traveled the thirty miles from Tucson at a speed of about fifty-five miles an hour.

SEEN OVER TUCSON  
Tucson, Ariz., Aug. 27.—The German dirigible Graf Zeppelin passed over Tucson at 10:20 a.m., M.S.T., at an altitude of 2,000 feet. The motors appeared to be functioning perfectly.

The course the air ship follow was toward El Paso, one of the key points Dr. Hugo Eckener, commander, had set on his course.

FOLLOWED RAILWAY  
Pheasants, Ariz., Aug. 27.—Following the rails of the Southern Pacific Company from Maricopa, approximately forty miles northwest of here, the German dirigible Graf Zeppelin passed over here at 9:40 this morning, mountain standard time. The distance was covered in forty-five minutes.

MESSAGE TO CLEVELAND  
Cleveland, Ohio, Aug. 27.—The National Air Race committee announced to-day it had received a wireless message from Commander Eckener of the German dirigible Graf Zeppelin saying the round-the-world airship would pass over the Cleveland airport at about noon to-morrow en route to Lakehurst, N.J. The message said flying conditions would determine just what time the Zeppelin would make its appearance. Commander Eckener dispatched his message while over San Juan, Arizona.

COURSE CHANGED  
Maricopa, Ariz., Aug. 27.—Swinging southward and apparently hanging its course to Tucson from Phoenix, the dirigible (Concluded on Page 3)

## AIRSHIP FLIES ONLY 100 FEET FROM GROUND

Phoenix, Ariz., Aug. 27.—Report were received here through the Southern Pacific Company shortly before 3 p.m., that the dirigible Graf Zeppelin had lost altitude near Hachita, N.M., and was less than 100 feet from the ground.

Southern Pacific officials here said that while the Graf appeared to be laboring, it was possible the loss of altitude was due to the fact that Hachita has an altitude of more than 5,000 feet. It was pointed out that the Shenandoah in its trip over this region also flew at a very low altitude.

## PRINCE OF WALES NOW FLIES PLANES

London, Aug. 27.—The London Daily Mail to-day said the Prince of Wales had developed into a first-class aeroplane pilot as a result of secret lessons at an aerodrome near London.

His tutor was stated to have been the squadron leader, Don by name, who has usually piloted him on plane trips. His most recent instruction was in landing, taking off and taxiing. It was said.

The paper said the Prince recently took control for a short time of a large passenger air liner, which he chartered particularly for an urgent journey to the continent.

## CANADA IS TO BUY BUILDING SOON FOR LEGATION IN TOKIO

Tokio, Aug. 27 (Canadian Press).—The present temporary quarters of the Canadian Legation in Shibuya, Tokio, probably will be abandoned in favor of a more suitable location shortly after the arrival in September of Hon. Herbert M. Marler, Canada's first Minister to Japan.

Though the grounds of the building now occupied by the Legation are beautiful and spacious, the structure itself is too old and cramped. In anticipation of Mr. Marler's arrival, Dr. Hugh Keenleyside has been searching for a better home for the Legation and has obtained options on several suitable places, pending the Minister's decision.

## First Transpacific Dirigible Over San Francisco

Above is reproduced a photo of the Graf Zeppelin as it flew over Golden Gate Park, San Francisco, between 6 and 7 o'clock Sunday evening, just after reaching this continent from Japan and before turning south for Los Angeles. As a result of telegraphed instructions from The Times the photo was rushed by air mail to Seattle and the matrix for the cut was sent from there, arriving in Victoria this forenoon—an example of the speed of present-day methods of mail transportation.

## British Marines Fire On Fighting Factions In Haifa

### BRITISHER KILLED IN HAIFA RIOT

London, Aug. 27.—The Colonial Office has been officially informed of the death of G. R. H. Sikes, British transportation superintendent of the Palestine Railways, from injuries received when Arabs and Jews stoned one another at Haifa.

Cairo, Egypt, Aug. 27.—British marines opened fire this afternoon at Haifa in an attempt to quell an Arab attack on the Jewish quarter of the city, in which many were killed and wounded among both Jews and Arabs, according to reports received here by the Jewish Telegraphic Agency. The marines fired on both the Jews and Arabs. It is stated.

## MAGISTRATE IS CALLED BEFORE SUPREME COURT

Allegation of Contempt of Court In Royal City

Vancouver, Aug. 27.—Under an order made by Mr. Justice D. A. McDonald, Magistrate H. C. Johnston of New Westminster has been summoned to appear in the Supreme Court on September 4 to show cause why he should not be committed to jail for alleged contempt of court.

The order follows refusal or neglect of Magistrate Johnston to comply with a previous order made by Mr. Justice Fisher calling upon him to furnish a transcript of the evidence, records of conviction and other documents pertaining to the trial of Wong Yook, Chinese, who was fined \$200 on a charge of marketing potatoes without obtaining written permission from the mainland potato committee of direction.

Appeal against the conviction has been taken in behalf of Wong Yook by H. R. Bray, who appeared in Supreme Court chambers a week ago ready to argue the case, but informed the court he was unable to proceed through failure of the magistrate to produce the trial records.

## SOLLOWAY-MILLS TO OPEN DIRECT STOCK OFFICE HERE

Victoria and Seattle Branches Complete Transcontinental Financial Chain

J. F. Macdonald, Western general manager of Solloway, Mills & Co. Ltd., and D. G. S. Duns, assistant manager of the Vancouver office, arrived here to-day to complete arrangements for the opening of a direct branch, Victoria office, for the firm.

"We will open our Victoria and Seattle offices at the same time, which will be in October," Mr. Macdonald said. "Victoria is an important financial centre."

"We anticipate a very active market in mining and oil stocks right across Canada as we get into the fall months." The head office of Solloway, Mills & Co. is in Toronto. Yesterday J. W. C. Solloway, president, announced the purchase of the chain of nine brokerage offices operated in Halifax and other chief cities of the maritime provinces by the Willis Securities Co. Ltd., and extending to Newfoundland with a branch at St. John.

## ONE DEAD, TWENTY BURIED IN MINE

Wilkesbarre, Pa., Aug. 27.—One man was believed dead and several score entombed by an explosion in No. 1 and No. 7 shafts of the Pennsylvania Coal Company's mine at Hughesstown at 2 o'clock this afternoon. The force of the blast broke windows and toppled chimneys in the borough.

## WELLS WINS AIR DERBY FROM COAST

Wichita, Kansas, Pilot Is First At Cleveland In Race From Portland

Cleveland, Ohio, Aug. 27.—Ted Wells of Wichita, Kas., sent his plane roaring down across the finish line at 3:29 p.m. this afternoon to win the Portland, Ore.-Cleveland air derby, one of the chief features of the National Air Races.

A few minutes behind Wells came Tex Rankin of Portland, who flashed across the finish line at 3:35 p.m. Wells' unofficial time for the race from Portland was computed at 14 hours 50 minutes and 7 seconds.

Third to cross the finish line was W. H. Emery Jr., of Bradford, Pa., at 3:40.

OAKLAND RACE CONTINUES  
Omaha, Neb., Aug. 27.—The five remaining fliers in the Oakland-to-Cleveland air derby took off from the airport here shortly after 9 o'clock this morning, headed for Springfield, Ill., their next stop. D. G. Warren of Oakland, was the first in the air, his leaving time being 9:12:10 a.m.

## TWO ATTEMPT CHANNEL SWIM FOR DOVER CUP

Boats Accompanying Ishak Helmy and Dr. G. B. Brewster From Shore

Dover, Eng., Aug. 27.—Ishak Helmy, giant Egyptian swimmer, entered the water of the English Channel here at 7:09 a.m. in an attempt to swim across it, a feat he accomplished once before in January, 1928. His effort was made with the hope of winning the Dover Town Gold Cup. An accompanying boat contained among others his trainer, Burgess, and the mayor of Calais.

Another aspirant for the Dover Gold Cup was Dr. G. B. Brewster, who left for South Foreland, where he entered the water at 11:45 a.m. in an attempt to swim to France. He was accompanied by a boatload of witnesses, including three women.

## PART OF NEW WING READY NEXT MONTH

Some Rooms at Empress Hotel Will Likely Be in Use About Sept. 15

M. P. Delahanty Here From Winnipeg on Inspection Tour of Hotels

M. P. Delahanty, assistant general manager of C.P.R. western hotels, has been in the city since Saturday inspecting the company's hotel.

Although no definite date has been set for the opening of the new wing of the Empress Hotel, it is anticipated that some of the rooms in the new building will be available for use by September 15.

The interior finishing work is going on and the glazing of the windows is in progress. The outside walls have been completed with the exception of the north tower, while the roofing is now in the last stages.

The new electric speed elevators have been tested out and found to be in every way satisfactory, and work is now being concentrated on the reconditioning of the existing elevators.

The tea room, which occupies the space formerly known as the palm court, has been finished, and the news stand has been transferred to a more central location in the rotunda.

The steel for the glass of the new conservatory is being placed in position at the rear of the hotel, immediately adjoining the writing-room.

The next step will be the extension of the office in an easterly direction. The existing private dining-room will then be demolished to make way for the grand marble staircase leading to the lower floor.

H. F. Matthews, general manager of C.P.R. western hotels, is expected in the city very shortly from Winnipeg.

## Marathon Swim Postponed Due To Cold Water

Toronto, Aug. 27.—Postponement of the fourth Wrigley marathon swim for twenty-four hours on account of cold water was ordered this afternoon by the aquatic committee.

The temperature of Lake Ontario off the grounds of the Canadian National Exhibition this afternoon was fifty-four degrees, four lower than the required temperature.

The postponement means the race will be held Thursday.

## FIRE FIGHTERS IN MANITOBA USING PLANE

Winnipeg, Aug. 27.—Struggling forest firefighters who have battled fires in Manitoba for many years received a glimmer of hope to-day as they slowly succeeded in gaining control of several conflagrations. Cool, damp weather and lessening of the winds aided the weary crews in their task.

At the Forestry Department here to-day the situation was reported "unchanged," but it was said the outlook was good. The fires surrounding the national forest area in Manitoba's northland were said to be under control after many days' struggle. In the Ojibwa district, the department said, the fires were "fairly well in hand."

PLANE TAKES SUPPLIES  
The real problem facing the Forestry Department and its large force of men is in the Bradbury River district. A biplane carrying supplies to-day was rushed to the Bradbury River territory. The plane carried additional equipment. The dense smog, which is sweeping the countryside hampers the firefighters greatly, and this blaze is testing the endurance of the men. Every available man employed by the department and recruits secured in the district are battling the stubborn outbreak.

## MAN KILLED AT BRITANNIA MINE

Squamish, B.C., Aug. 27.—Edward B. Wilkinson, thirty-seven, was hit by a train this morning on the 1050-foot level in the Britannia Mine and fatally injured. Wilkinson was working by the side of the track. The lighting there is good, and it is thought he misjudged the space between the train and the wall as there is ample room nearby.

Mr. Wilkinson was born in England. He leaves his widow and two daughters residing at 1050 Melville Street, Vancouver.

An inquest will be held in Vancouver.

## UNIVERSITY RESEARCH WORK NEW AID TO B.C. PAPER MILLS

Vancouver, Aug. 27.—Researches conducted at the University of British Columbia during the last year relative to problems in the paper and pulp industry have been so successful that the Powell River Paper Company has offered the board of governors the sum of \$5,000 for the coming season to enable continuation of the work.

The board, at its meeting last night, decided to accept the offer, noting with expressed satisfaction that the amount was almost double that contributed last year by the company for the same purpose.

The researches have been in bacteriology and biochemistry and have been directed by Professor Wilfred Sadler, head of the department of dairying, and associates in the faculty of agriculture in collaboration with a number of the experts of the paper company at Powell River.

## Men Rush By Air And Trail For Mineral Claims

Most Modern Form of Transportation Aids in Making Rush in Northern Saskatchewan Biggest in Canada For Years; Gold, Nickel, Copper, Platinum, Zinc and Lead Included in Minerals.

The Pas, Man., Aug. 27.—A spectacular mineral strike about 200 miles north of Prince Albert has caused a new rush of prospectors to northern Saskatchewan that in numbers promises to surpass anything the northwest has seen in years, according to word received here. The discovery, said to be a rich formation composed of copper, nickel, gold, zinc, lead and platinum, was made on the Riley group of claims, situated in the Montgomery Lake area.

As far as has been learned here, about 150 claims have been staked in the region. Aerial fleets of some of the strongest mining operators, as well as independent prospectors, were rushed to the Montgomery Lake district and are engaging in a stiff competition to secure promising ground. The total number of claims staked during the last few days constitutes a record for Saskatchewan, it is stated.

The thrilling contest to secure claims is not confined to aerial prospectors. Scores of men from both Manitoba and Saskatchewan are following over the trails to the mineral belt.

CLUB EXPECTS 15,000 DELEGATES AT CONVENTION  
Kiwanis Club Notified of Northwest District Conference Here Next Year

H. M. Diggon Reports on Proceedings of Salem Sessions Last Week

Over fifteen hundred Kiwanians and their friends will invade Victoria early in September of next year to attend the eleventh annual conference of the Kiwanis Pacific Northwest District. This announcement was made to the Kiwanis Club this afternoon, by H. M. Diggon on behalf of the delegation which represented Victoria last week at the conference in Salem, Oregon.

Mr. Diggon reported that selection of Victoria as the venue of the next conference was marked by great enthusiasm and was unanimous.

The invitation to Victoria was presented by Mr. Diggon and was supplemented by telegrams from Mayor Arnscomb and Herbert Wilson, manager of the Empress Hotel.

## OIL MEN ARE HELD AT BORDER BY NEW ORDER

Number of U.S. Experts Coming Into Canada Must Write to Ottawa

Calgary, Aug. 27.—Oil men of almost every station are held up at Sweetgrass, Montana, vainly seeking entry into Canada but refused admission under the terms of the order-in-council, made effective August 7, which prohibits the landing in Canada of "contract labor," which is defined in the order as "any immigrant seeking entry into Canada."

Those trying to enter Alberta range from important executives and geologists of oil companies down to roustabouts and according to information given to The Calgary Herald this morning, all are being refused admission.

Big oil companies, such as the Hudson Bay-Marian Corporation and the Texas Oil Company, and various oil field supply companies are burning the wires to Ottawa and to their head offices in their efforts to secure entry for officials who were on their way to Alberta to investigate oil areas and potential drilling programmes.

The Herald says the first intimation the companies had of the new rule was the notification from their officials at Sweetgrass that they could not pass the Canadian immigration authorities at Coutts, Alberta.

TEXT OF ORDER  
The immigration officials were governed by the following order-in-council, issued from Ottawa:

"From and after the seventh day of August, 1929, and until otherwise ordered, the landing in Canada of any immigrant of the specific class, namely, contract labor, is prohibited. The term 'contract labor' as used in this order, means and includes any immigrant seeking entry into Canada."

Among those refused entry at Coutts are: R. F. Baker of New York, assistant to the president of the Texas Oil Company; H. A. Stewart, chief geologist of the Rocky Mountain division of the Texas Oil Company; Martin Norman of Denver, drilling superintendent of the Hudson Bay-Marian Corporation; R. B. Deschner, an official of the Continental Supply Company, and C. H. Brown of the Goodman Manufacturing Company.

PERMIT SYSTEM  
That the present blockade at the border will not be permanent was indicated by information given The Herald as to the procedure that must be followed by those seeking admission. They must first write to the Minister of Immigration at Ottawa and make application for entry. If he approves he will issue a letter to the applicant, who will present this to the Minister's immigration officials at the port of entry, where it will be honored. This is said to be similar to the United States practice in effect for the last ten years.

At the Coliseum Theatre, where she will appear all winter, a capacity audience enthusiastically welcomed her back. Miss Page formerly was an entertainer at the old Princess Theatre on Yates Street. Last evening's opening at the Coliseum was a gala one, the Victoria Chamber of Commerce being the sponsors, and a large number of the members and their wives were present at the guests of Manager George McEwan. Prior to the performance George I. Warren, publicity commissioner, addressed the audience and said that it was the desire of the Chamber of Commerce to foster good, clean entertainment in Victoria, and it was for that purpose that the chamber had undertaken to be present on the first night. At the conclusion of the stage presentation Walter S. Miles, president of the Junior Chamber of Commerce,

well of it that he put it out as one of his pet "specials."

Wesley Ruggles directed it from the magazine story, "The Haunted Lady," by Adela Rogers St. Johns. Miss La Plante is supported by a strong cast, including such favorites as Hunley Gordon, John Boles and Jane Winton.

The story concerns the mix-ups in which a young society matron, played by Miss La Plante, finds herself, when a sweetheart from her obscure past appears to haunt, taunt and tempt her. She fears scandal worse than death. So does the man she married. She finally is faced with a choice between a scandal and the wrecking of her home, or seeing a man go to prison unjustly. The drama of the picture is well sustained and handled with an expert touch.

**WOMAN CROOK**

**CENTRE OF STORY**

**AT COLUMBIA**

Dramatic, thrilling and exquisitely appealing, Phyllis Haver's new dramatic Pathe star picture, "The Shady Lady," was received with every manifestation of enthusiasm at the Columbia Theatre yesterday. Miss Haver's role is that of a woman with a price on her head who is hiding in Havana. A crook admiral, portrayed by Louis Wolheim, learns her secret and holds her in his power until she meets an American soldier-of-fortune in the person of Robert Armstrong. Then things happen swiftly and in a manner greatly to the liking of every spectator. Miss Haver never was seen to finer advantage.

The picture, directed by E. H. Griffith, is screen entertainment of the finest type.

**VITAPHONE SCORE**

**BRILLIANT SUCCESS**

**WITH "DESERT SONG"**

The most brilliant accomplishment of Vitaphone Warner Bros.' finest achievement on the audible screen is undoubtedly "The Desert Song," the first complete screen operetta ever filmed which was shown for the first time in Victoria at the Dominion Theatre last night before an applauding audience. It is a complete triumph for Warner Bros. and Vitaphone alike, and greatly enlarges the field of entertainment of motion and talking pictures. Every film patron will go to see it because of its novelty, and remain to be enchanted by its visual and audible beauty.

Sigmund Romberg's delightful music loses none of its charm and allure on the screen for it is magnificently interpreted by the Vitaphone Symphony Orchestra and capably rendered by a cast of singers who possess excellent voices and know how to use them for recording purposes. John Boles, tenor, who plays and sings the role of the Red Shadow and Carlotta King, lyric soprano, in the role of Margot, held the audience captive by their numbers as though they had been on the stage in the flesh. Their duo, "The Desert Song," is one of the moments of high and exquisite beauty in the operetta.

**RICARDO CORTEZ**

**IN LEADING ROLE**

**OF "GUN RUNNER"**

The emotions of the Tiffani-Stahl Production master who has made O.K. the bills may be imagined when he found thirty sets of dishes charged against "The Gun Runner," the feature starring Ricardo Cortez now showing at the Playhouse Theatre.

"Thirty sets of dishes!" he gasped. "Whatever did you do with them?"

When he learned they had been broken during the safe scene in which Cortez fights off about twenty men before the arrival of a squad of constabulary overwhelms him by superior numbers, he said he certainly looked forward to seeing that picture. "It ought to be a real swell scrap."

"The Gun Runner" cast includes Nora Lee, John St. John and Gino Corrado. John Francis Natteford wrote the continuity, suggested by Arthur Stringer's exciting adventure drama of the same name. Edgar Lewis directed the picture.

**HEAR LECTURE**

"The so-called dead, on leaving the physical world, do not change any more in their appearance or characteristics than they would in passing from one house to another," was the statement made by Elaine Scribner, theosophical lecturer, last night, in speaking on "What Happens After Death" at the Pemberton Building, room 311.

"Theosophists base their belief in the after life on the statements of occult investigators who have scientifically explored the regions of life after death by means of the development of certain senses latent in every human being. These investigators are called occult scientists and their reports tally with the researches of the material scientists, such as Blount, Sir Oliver Lodge, Sir William Crookes, the reports of the Society for Psychical Research, as well as the statements of the thousands of mediums and sensitive who have caught glimpses on these higher planes.

"The statements of all agree, that man, after death, passes out of his physical organism, in a body which is similar in every detail to the appearance of the physical body, but which, being composed of smaller particles of matter than the physical, is not observed by ordinary vision. This finer body is called the 'astral' body."

To-night Miss Scribner will lecture on "The Supermen Called Masters."

### GRAF FLIES OVER NEW MEXICO ON WAY TO THE EAST

(Continued from page 1)

The dirigible Graf Zeppelin passed over here at 8:55 a.m. on a standard time, to-day. It had flown the approximately forty miles from Gila Bend in one hour and seventeen minutes, a further decrease in speed. Maricopa is directly south of Phoenix.

#### SPEED CUT DOWN

Phoenix, Ariz., Aug. 27.—Although the dirigible Graf Zeppelin apparently had successfully evaded a severe electrical storm which swept sections of Arizona last night, its speed had been greatly reduced and the giant craft was flying low as it neared here this morning.

#### OVER GILA RIVER

Gila Bend, Ariz., Aug. 27.—The dirigible Graf Zeppelin was sighted approximately ten miles west of here at 7:38 a.m. on a standard time, to-day.

### THIRTY LOSE LIVES IN FLOODS IN BULGARIA

Sofia, Bulgaria, Aug. 27.—Thirty persons were drowned by floods in the Radomir district. The high waters checked relief trains so they could not reach the villages of Gorana, Dikanja, Dolna and Dugan, the inhabitants of which in many cases sought refuge on the roof of their homes.

### SOLLOWAY-MILLS TO OPEN DIRECT STOCK OFFICE HERE

(Continued from page 1)

With the acquisition of this chain in the Maritimes and the opening of the Victoria office, Solloway, Mills & Co. will cover the whole of Canada from the farthest east on the Atlantic to the farthest west here in Victoria, Mr. MacDonald said.

From Victoria Mr. MacDonald will go to the Prairies, where he will open for Solloway, Mills & Co. four more offices in the smaller cities from Moose Jaw to Prince Albert.

The Victoria office will carry the full leased trans-Canada wire services of Solloway, Mills & Co., covering all the Canadian mining and oil markets. The Victoria office will also carry a full grain quotation service on the Winnipeg and Chicago markets.

## John W. Daffoe Is Member of New U.S.-German Board

Winnipeg Editor Will Act With Four Others On Commission Under Treaty For Advancement of Peace Between American and European Republics.

Ottawa, Aug. 27.—John W. Daffoe, editor of The Manitoba Free Press, has been chosen by the United States Government to serve as non-national commissioner on the part of the republic on the international commission appointed under the treaty for the advancement of peace between the United States and Germany. The treaty, which sets forth that any dispute, if ordinary diplomatic proceedings have failed, shall be referred to the international commission for investigation and report, was signed at Washington May 5, 1928.

The appointment of Mr. Daffoe marks the second occasion on which a Canadian has been signally honored by the United States Government through selection for service on a commission acting for that republic.

Senator Raoul Dandurand last year was chosen on a similar commission for the advancement of peace between Brazil and the United States. Mr. Daffoe was approached by William Phillips, United States Minister at Ottawa, through Dr. O. D. Skelton, Canadian Under-Secretary for External Affairs. It was announced Mr. Daffoe had informed Mr. Phillips he was "deeply conscious of the honor which the President of the United States has conferred, and recognizing the responsibility involved, has much pleasure in accepting the designation in question."

#### GROUP OF FIVE

The international commission being set up by the United States and Germany is to have five members, of whom Mr. Daffoe is the first named. Each government is to name a commissioner from a third country, and then a fifth commissioner is to be named by common consent of the two governments from some third country.

## REPARATIONS DELEGATES ARE SOON TO PART

Powers' Agents Expected to Cease Discussion Until Council Has Met

Delegates of Six Nations at Hague Unable to Report Any Agreement

The Hague, Aug. 27.—The reparations conference to put the Young plan into effect, the first session of which was held about three weeks ago, to-day seemed heading rapidly for adjournment without an agreement having been reached. Premier Briand of France this morning sent a letter to Premier Jaspard of Belgium, suggesting a meeting of the six powers which called the conference, to clear up the entire situation.

Right Hon. Philip Snowden, British Chancellor of the Exchequer, who yesterday declared inadequate the latest offer of the other four creditor powers, on being informed of M. Briand's suggestion, proposed the meeting be held at 3:30 o'clock, but eventually agreed to 5 p.m., when the delegates of the six powers will meet and the fate of the conference presumably will be settled.

#### PLANNED SESSION

It is regarded as likely a plenary session of the conference will be held to-morrow, at which it will be announced adjournment is necessary until after the coming session of the Council of the League of Nations at Geneva.

The French were particularly averse to another full session, their theory being that if it were necessary to break off the efforts to solve the reparations problem finally, it was not necessary to do it with any fireworks.

Up to the last hour optimistic deathly looked for a miracle to save the conference. Their principal argument was that neither side could afford to take responsibility for breaking up this attempt to end the war trouble. However, it was remarked in other quarters that each side felt the other responsible.

The German delegation, which is especially anxious to make known its position, supported the British Chancellor's request for a full session.

## ONTARIO HEARS ELECTION TALK

Rumors Says Test Will Come In Autumn; Ministers Parry Question

Toronto, Aug. 27.—The political pot in Ontario has begun to simmer. Rumors of an election this fall are heard on every hand, but Premier Howard Ferguson and members of his Cabinet so far have definitely turned aside all queries with non-committal answers.

The last general election was held December 1, 1926, and in the normal course of events would have more than a year's tenure of office ahead of it. The Government has not seen fit to state an election will not be held before the expiration of the regular term, but neither has it said an election will be held.

W. E. N. Sinclair, Liberal leader, who has been touring various sections of the province, has been predicting an election this fall and has been urging preparedness on the part of the local Liberal organizations. One source said it that an election would be held some time during the first two weeks of November. Premier Ferguson had no comment to make on this.

## LABRADOR SALE IS AGAIN TOPIC OF DISCUSSION

St. John's, Nfld., Aug. 27.—It is reported here that Joseph de Champlain, now in Canada, carries a letter addressed to Premier Taschereau of Quebec by the Newfoundland Government, empowering him to undertake negotiations for the sale of Labrador.

The tentative price is said to be \$10,000,000, of which \$10,000,000, the report says, would be paid to certain interests represented by De Champlain who have timber claims in the district.

#### NO MIDDLEMAN NEEDED

Quebec, Aug. 27.—"If there is to be a sale of Labrador, the question should be discussed between the Governments of Canada and Newfoundland," Hon. L. A. Taschereau, Premier of Quebec, said to the Canadian Press when shown a dispatch from Moncton, N.B., which stated J. de Champlain was en route to Ottawa with authority from the Newfoundland Government to open negotiations for the sale of Labrador to Canada.

A dispatch from Ottawa last night said: "Canada is to be invited to make a bid for Labrador. A month ago the Canadian Press sent out from Ottawa a dispatch that the suggestion that Canada buy Labrador had been put before the Cabinet, but not in an official way."

## PLANE CRASH CAUSES DEATH OF W. PACKARD

Detroit, Mich., Aug. 27.—Warren Packard, heir to the Packard motor millions, was killed in an airplane crash near Grosse Ile, Mich., last night. Talbot Barnard, Packard salesman, who was piloting the plane, was seriously injured. They were flying Packard's private seaplane.

According to expert fliers who witnessed the crash, the men were flying at an altitude of about 1,000 feet when the motor apparently stalled instead of going into the glide the situation called for. The plane went into a steep climb, from which Barnard could not right it, and struck a marker in a marsh near the Detroit River. The men were rushed to a hospital, where Packard died a short time later. It is thought Barnard will recover.

Mr. Packard was thirty-five years of age. He was married and the father of two children. Three years ago he inherited the twin fortunes of his father and uncle, founders of the Packard Motor Car Company. He was a veteran of the World War and a lieutenant in the United States naval reserve.

Two years ago Mr. Packard organized the Detroit Air Yacht Club for the purpose of promoting aviation.

## BUFFALO WOMAN WINS AIR RACE

Leading Contestant In Speed Test Disqualified at Cleveland

Cleveland, Ohio, Aug. 27.—Phoebe Omlie of Birmingham, Ala., who won the women's fifty-mile airplane speed race at the National Air Races to-day, was disqualified for fouling on one of the turns and the officials awarded first place to Mrs. Keith Miller of Buffalo, who had finished second.

Miss Omlie had been announced the winner in the remarkable time of 113.5 miles per hour, but judges later ordered her disqualification for fouling another plane at one of the pylons, which mark the ten-mile aerial speed-way.

#### LADY HEATH BEATEN

Mrs. Miller had finished at a speed of 98.72 miles per hour, nosing out Lady Mary Heath of England, whose speed was 96.17. Lady Heath was given second place and Blanche Moyes of Cleveland was moved up to third place. Her speed was 85.4.

Miss Omlie, when she learned of her disqualification, immediately filed a protest with the race committee.

## BRITISH MARINES FIRE ON FIGHTING FACTIONS IN HAIFA

(Continued from page 1)

Jerusalem, Aug. 27.—Moslem Political leaders to-day issued a manifesto urging the Arabs to discontinue the riots which have torn Palestine for the past few days.

#### BATTALIONS EMBARK

Valetta, Malta, Aug. 27.—Two battalions of British troops to-day received orders to prepare for embarkation for Palestine. The aircraft carrier Eagle, the battleship Royal Sovereign and the destroyers Walston and Witherington, all under orders for Palestine, were standing by awaiting the signal to sail.

#### OLD SCROLLS DESTROYED

Jerusalem, Aug. 27 (Jewish Telegraphic Agency)—Ancient scrolls of the law, some of them more than a thousand years old, were destroyed by fire last night when two more synagogues in the Georgian Jewish quarter of Jerusalem were burned by Moslem Arabs.

London, Aug. 27.—An Exchange Telegraph dispatch from Cairo says the executive committee of the Syrian-Palestine Conference has sent a protest to the League of Nations declaring the present disorders in Palestine were a direct outcome of the Balfour declaration.

The protest said more than 200 lives had been lost in one day in Jerusalem alone and it was feared a blacker future lay ahead.

#### RIOTS IN JERUSALEM

Jerusalem, Aug. 27.—Violent demonstrations by Arabs and Jews to-day followed the arrival of a Jewish detachment from Gaza in the Holy City. British authorities were forced to evacuate many Jews from their homes and concentrate them in heavily-guarded hotels.

#### STATION ATTACKED

Cairo, Aug. 27.—The electric power station at Haifa, part of the Ruttenburg scheme to harness the waters of the Jordan to supply light and power for Palestine, was attacked by Arabs, according to a report received here by the Jewish Telegraphic Agency. Five Jews were killed and the power house was said to be in danger.

#### TROOPS AT DAMASCUS

Beirut, Syria, Aug. 27.—The correspondent of the Jewish Telegraphic Agency here reported to-day that hostilities between Arabs and Jews had extended beyond the frontiers of Palestine. French authorities sent a large detachment of troops to protect the Jewish quarter in Damascus.

#### NEWS BY TELEPHONE

Cairo, Egypt, Aug. 27 (Jewish Telegraphic Agency)—Telephoned uncensored advices from Jerusalem to-day indicated an extremely grave situation throughout Palestine as a consequence of continuing Arab-Jewish warfare.

"Many from among us have been killed," Isaac Ben-Sevi, Jewish Labor leader, said. "Our arms have been taken away, but not taken from the Arabs."

The Jewish population at Tel Aviv, all-Jewish city, complained the action of the British troops there was weak and that the Jewish self-defence corps had been ordered to abstain from action. There were other complaints of weak governmental action and of obstruction of Jewish self-defence measures.

Vaad Hadir, Jewish community board of Jerusalem, estimated the deaths of the Jews ranged between 120 and 150.

#### AIR RACE

Louisville, Ky., Aug. 27.—C. D. Bow-year, Westfield, N.J., led the Miami Beach-Cleveland air derbyists in the hop-off from here at 9 a.m. (C.S.T.) to-day. Thirteen other fliers left Bowman Field at one-minute intervals in the reverse order of their arrival here yesterday.

## THE AIRPORT

**AT ITS MEETING LAST NIGHT** THE City Council was called upon to consider the question of an airport for land machines. Alderman Marchant presented a resolution recommending consultation with the three neighboring municipalities with the object of arriving at an arrangement which would be satisfactory to all parties. We think this might have been acted upon at once; but it is to be hoped no time will be lost. It is imperative that Victoria be in a position to advertise the fact that she has ample accommodation for the handling of both sea and land machines.

We note the board of directors of the Jubilee Hospital object to the use of the Lansdowne Road field on the ground that the arrival and departure of aircraft from that area is both disturbing and distressing to patients undergoing treatment at that institution. We have no doubt there is merit in this complaint, and, since aerial travel to and from this community is bound to develop at a rapid rate as soon as adequate accommodation shall be provided, the establishment of an airport should have regard for a good deal more than immediate requirements.

Whatever course is taken, it is only fair that, if public funds are to be utilized for a suitable airport, the four municipalities should contribute upon a proportionate basis. After all, Greater Victoria will be served by the airport, and this should be established by the four communities which comprise it.

## EQUALITY ON THE ROAD

**AN AUTOMOBILE TRIP THROUGH** the Canadian countryside leads to a number of interesting conclusions—among them the thought that the rich man's advantage over the poor man is growing smaller every year.

Fifteen years ago cross-country motoring was a recreation confined largely to the well-to-do. It took a fairly expensive car to stand up under the daily grind of long-distance driving. Traveling expenses were heavy. If the poor man tried such a trip he had to put up with many kinds of discomfort, strain his financial power to the limit, and miss many of the spots to which the rich man's car carried him.

To-day there are millions of tourists on the roads. Automobiles of every price and model, bearing the license tags of every Canadian province and every state in the neighboring republic, whirl by in procession. There are old cars, new cars, cheap cars, expensive cars, fast cars, slow cars—all spinning over the roads, bearing their owners in pursuit of one of the finest forms of recreation available.

Among this army of autos, the cars of the poor man far outnumber the cars of the rich man. Rich man and poor man, in fact, are equals on the open road. The poor man can go anywhere the rich man can go, and can enjoy anything the rich man can enjoy.

The same good roads are available to each. The same scenery is open to each. The man who paid \$800 for his car can go just as far and just as fast as the man whose car cost \$5,000. He can enjoy precisely the same sights and sensations. It is only in the unimportant trimmings of the trip that he is outclassed.

The rich man, for instance, rides in slightly greater comfort. He stops at expensive hotels, while the poor man pays a dollar for a room in a private home—or, perhaps, pitches his tent on some free camping ground. The rich man, perhaps, eats better food along the way and buys more souvenirs and keepsakes in the towns he visits. Otherwise the two fare exactly alike.

There is a new sort of equality in all of this. Democracy is being made more real by it. No longer are the beauties of mountains, seashore and lakes reserved for the enjoyment of the well-to-do. Any man with a three-year-old flivver and a few spare dollars can have his fill of them.

This is the thing that the automobile makers have done for us. The huge factories of Canada and the United States are playing a vital part in a new development in New World life. They are opening for the average man the gateway to a freer, wider existence—and, in the doing of it, breaking down the old distinction between rich and poor.

MR. GRANGE V. HOLT

**THE TRAGIC DEATH OF MR. GRANGE** V. Holt in Vancouver the other day has removed a prominent and highly-esteemed citizen of that community and a businessman who was well known throughout the Province, and especially in Victoria. His long association with the Canadian Bank of Commerce, in whose service he rose to a high and responsible position, had brought him in touch with the many activities which have been responsible for the development of British Columbia. In these developments he was naturally interested, by virtue of his position, in a financial way. But he was not only the banker; his advice was frequently sought, never refused, and always could be relied upon. In this way he established a fine reputation.

It will be recalled that on the occasion of the meeting here of the Pacific Coast Foreign Trade Council, Mr. Holt gave an able address. Not only was Mr. Holt well known and well liked in Victoria by a wide circle of friends; his talented daughters often have been seen here in those fascinating exhibitions of fancy skating in which they distinguished themselves both in this country and in Europe. To them especially will be extended by their many friends in this community heartfelt sympathy in their irreparable loss, while British Columbia as a whole will be the poorer by the passing of a citizen who for more than forty years had devoted himself to the welfare of the Province.

## PROBLEMS FOR ORGANIZED LABOR

**LEADERS OF ORGANIZED LABOR** IN the United States, perhaps smarting under criticism within their ranks of their so-called lethargy, have lately begun to demonstrate an increasing interest in the sorer spots of the labor situation and in the newer problems which begin to confront industrial workers as a class.

Generally speaking, the republic has been going through the existing period of comparative prosperity without any serious labor troubles. These have been good times for organized labor and not so good for unorganized labor, as usual. And although minorities have bitterly criticized the controlling officials of the American Federation of Labor and other large organizations, it seems only fair to suggest that these men have been representative of the conservatism and contentment of the dominant class of labor. Employers have also been more friendly in dealing with employees and less reluctant to share with them some portion of increased profits.

But this is not the millennium. Perhaps there is forever bound to be some conflict between capital and labor. Certainly this unprecedented "machine age" of ours was bound to develop certain new and serious social problems. Capital can take pretty good care of itself. But when anything goes wrong the employees are the first to feel the pinch in reduced employment and lower wages. In any broad conception of public welfare it is necessary that they be sufficiently articulate to avoid the full brunt of any unhappy effects that may result either from hard times or from the modern methods of attaining prosperity.

Some recent labor efforts may not be effective in promoting labor welfare, but they indicate that organized labor is still alive to its interests. The outstanding example is its active interest in the southern textile struggle. President William Green of the A. F. of L. has struck some actually militant notes in his defence of the right of southern workers to organize and to strike. A national campaign is being waged, with A. F. of L. support, to "Organize the South." If it is carried through it will be a long, hard fight. The New England industry and its workers continue in a bad way, with lower wages, and the southern workers receive wages still lower.

So many of labor's problems are involved in inevitable economic trends that it is not surprising that labor cannot at first grapple with them effectively. Take, for instance, technological unemployment—replacement of men by new machines and new processes—which is commonly recognized as a problem of increasing seriousness. The optimistic theory is that other new occupations available are taking up the surplus workers, but the strain and hardship on the individual affected as he makes the enforced transition is something that few others ever bother to worry about. Allied with this is the problem of old age unemployment—caused partly by the policy of some corporations in not employing men over forty-five on the theory that older workers cannot keep up with modern industrial pace.

The Amalgamated Clothing Workers, one of the strongest American unions, is only now beginning to clean up notorious sweat shop conditions. More than 1,000,000 children, between ten and fifteen years old, were shown by the 1920 census to be employed.

Obviously, there is room for a broad and intelligent labor programme with the aim of establishing and maintaining the broadest possible prosperity.

## WHAT OTHER PAPERS SAY

AT THE HAGUE CONFERENCE  
The Montreal Star

Philip Snowden will earn the gratitude of his fellow-countrymen and the admiration of the rest of the Empire if he compels The Hague Conference to stop piling the burden on the hitherto far-too-willing British horse, while other nations suffering at present from gold-indigestion show their sympathy by benevolent but inexpensive "gestures."

FRIENDLY RIVALS  
The Edmonton Journal

It is interesting to note that the first message of congratulation received by the Bremen came from the officers of the Mauretania. In fact, there has been a fine spirit of good sportsmanship exhibited by both Germans and British in this latest ocean rivalry. For instance, when the Bremen needed to go into drydock for a general cleaning up before her entrance into transatlantic service, the only dock in Germany large enough was occupied by her sister ship, the Europa. The nearest available docks were at Liverpool and Southampton. According to the account that appeared in The New York Journal of Commerce at the time, had the Bremen been put in the Liverpool drydock, the novel design of her hull could not have been kept secret. The German owners, however, chose the great floating dock at Southampton, where the ship, "with all its mysteries of construction," was raised high above the water and exposed for days to full public view. Moreover, the proprietors invited the high officials and technical staffs of their great rivals, the Cunard and the White Star lines, to board the new vessel and study her lines both within and without. It was then an open secret that these two British companies contemplated building new ships to meet the competition of the German superliner and her sister ship, but manifestly all is fair and nothing is hidden in warfare for maritime commerce.

## Needs of Peace River

By EDITOR C. W. FREDERICK  
In The Peace River Record

Immigration has been flocking into the Peace River country for the past eighteen years. At first it kept fairly close to the line of railway survey, and later the line of operating railway. But particularly during the past few years it has proceeded much faster than railway development throughout the north, until now settlers are pouring into the vast areas far beyond the reach of railway facilities for several years to come.

Fortunately for our country, this immigration has been very largely the highest type of settlers—Anglo-Saxon stock with a high ideal of citizenship, and with the stamina that goes to build up substantial homes and a good country.

But unfortunately for many of these high class settlers, our government are too busy frantically waving their arms to bring in another class of immigrants to realize their duty to those already settled on the land. Particularly is this true of the British Columbia section of the Peace River country.

The Peace River country lies partly within the province of Alberta and partly within the province of British Columbia. Probably due to the fact that the whole people of Alberta have at one time experienced the difficulties of pioneer settlement, the Alberta government has done much more for her pioneer settlers during the past ten or fifteen years than has British Columbia. The government which has its centre in the rose strewn southern section of the coast province appears to have failed completely to comprehend the vast social and economic problems of the great agricultural area of the Peace River district or to recognize the needs of these northern people.

Within the Peace River block of British Columbia, comprising nearly 6,000 square miles, and its adjoining agricultural lands of an equal area, absolutely no provision is made by the Government of British Columbia for the medical needs of its citizens. In all this vast area there is but one physician practicing. However excellent he may be in his profession, it remains that human endurance and the matter of distances and transportation preclude the possibility of his serving more than a very limited portion of so vast an area.

This area is divided by the great valley of the Peace River, which serves as an effective barrier against transportation during the greater portion of the year. Yet on the north side of the Peace is a large and growing population, amongst whom are arriving the very best immigration that this country can ever see—the children of our own people. Already seven schools are required north of the Peace in the Fort St. John district to serve these children. Yet there are no doctors and no nurses.

Perhaps the British Columbia Government may plead that they have no provision in their legislation for the maintenance of district hospitals or doctors. But such provision should be made. Until it is, the fact that these children and young mothers that this district are left neglected must remain as a blot on the reputation of our boasted civilization.

Only last week on a tour through the district we called at the home of a settler. With his wife and two children he was making a home on a quarter section fifteen miles from the nearest post office. One child was two years old, the other three weeks. Yet in conversation this brave little woman remarked that she had not been off the homestead since last February, and that no doctor had ever been near her since she went there to live! What would be the attitude of the members of the British Columbia Government if their own daughters were fighting the battle of life under such pioneer conditions?

British Columbia has a wonderful asset in her agricultural lands in the Peace River block. But she has a greater asset in the type of settlers who have gone in to develop those lands. She owes it to them and to herself to establish without further delay a policy of conservation that will provide for these people what they cannot provide for themselves, that will ensure the safeguarding of the land which are a part of civilization itself.

## ACTION ON AIRPORT IS REQUESTED

Alderman William Marchant  
Out for Early Conference  
On Aviation Terminals

Progress Reported on Victoria's Seaplane Base and Plans Are Now Awaited

A trenchant plea for an immediate study of what is required for the creation of both land and water airports to serve the southern end of Vancouver Island, so that action may be taken to provide these facilities and so link the district with existing and expanding air-traffic, was made by Alderman William Marchant to the City Council last night.

Mr. Marchant likened airports to rail and water terminals, and asked for an inter-municipal conference on the question at an early date. He deleted from his motion all reference to a seaplane base, when it was stated that the city was within measurable distance of making that provision, as soon as the necessary drawings have been received from the B.C. Air Station at Jericho Beach. The field would also have to be provided, and this was a district affair, he submitted.

The motion asking for a conference of the executives of the city, Saanich, Oak Bay, Esquimalt, was referred to the committee of the city for report. It would be impractical to summon a joint conference of forty people, and to expect action thereby, it was stated. The committee was asked to report on ways and means of bringing about the same object, perhaps through selected representatives.

In his appeal for no further delay on the question, Mr. Marchant said in part, as follows:

**CANADA'S AIR ROUTES.**  
"Across Canada from Halifax to Victoria the Dominion Government is chartering an air route to go by way of cities, towns and hamlets as the 'rails' on which this new-found method of transportation will shortly run. Trans-Canada air mail and express service is being run around the coast. We here, on the southern end of Vancouver Island, have an opportunity of placing a station on that route, and so extend the great range of development that must be taken now.

"If the question was whether or not we wanted a railway terminal or a dock for shipping, where water-landing machines could be operated, and also to link up with the north and south air-routes from Alaska to California. In so far as B.C. is concerned, flying is likely to be mostly by means of seaplanes and flying boats.

"So that unless we take action now to secure proper advice, and to establish definite landing grounds for both water and field landing aircraft, we will not be included in the country's air-route. We will be unknown from the air, and the air is destined to be as great as the land or the sea in the opportunity it affords for the movement of mails, people and freight. We must make contact with the air-routes or be left in the cold.

## ON AIR MAP

"The seaplane base is immediately necessary. It will put us on the air map of the Pacific Coast, to serve any place in B.C. where water-landing machines can be operated, and also to link up with the north and south air-routes from Alaska to California. In so far as B.C. is concerned, flying is likely to be mostly by means of seaplanes and flying boats.

"So that unless we take action now to secure proper advice, and to establish definite landing grounds for both water and field landing aircraft, we will not be included in the country's air-route. We will be unknown from the air, and the air is destined to be as great as the land or the sea in the opportunity it affords for the movement of mails, people and freight. We must make contact with the air-routes or be left in the cold.

## ACTION NECESSARY

"The requirements of both land and water air bases are not secret. We can inquire from the Civil Aviation Authorities what is needed. But that should be done right away. It will cost money to provide permanent bases, so also would a railway station, or an ocean dock, and who among us would stop to question the wisdom of having both?

"The Dominion Government have made this a municipal problem, not to be faced by single municipalities, but by grouped municipalities to serve common needs. It is the cities, and towns of Canada that will before one year is out, provide a trans-continental airway. We must be included on that airway or we will land about the door of the greatest opportunity ever given into our hands. Aviation is destroying isolation and we must take our part," concluded Mr. Marchant.

## TWENTY-FIVE YEARS AGO TO-DAY

The Victoria Daily Times, August 27, 1904

Agriculturists of Vancouver Island and the lower Mainland are evincing more than usual interest in the fruit competition to take place at the forthcoming exhibition.

The work of paving Government Street from Courtney to Humboldt Street was commenced a few days ago, and City Engineer Topp expects that it will be finished in about four weeks.

With all the celerity of a vessel that would be fitted out for some stampede in a gold excitement, a little steamer called the Fern is being overhauled in the upper harbor.

D.G.S. Quadra will leave Vancouver on Monday with President Hayes and party with the Grand Trunk Pacific Railway.

The Songes Indian Reserve received a big addition to its transient population yesterday evening, when a steamer arrived from the Fraser with about forty Columbia River boats towing behind.

The boxer bell, which was presented to the city some time ago by Lieutenant MacDonald, is being installed in Beacon Hill Park.

The Victoria baseball nine and the Rainier team of Seattle will try conclusions in a game to take place this afternoon at Oak Bay.

Weather Forecast—Victoria and Vicinity—Southerly winds, mostly cloudy and smoky.

## Tennis Dance At Langford On Wednesday

Langford, Aug. 27.—All members of neighboring tennis clubs are given a cordial invitation to be present at the second tennis dance of the season, organized by the Langford Club at Langford Lakeside on Wednesday, August 28, at 9 p.m.

Ozard's orchestra will supply the music and members of the committee will serve refreshments.

**JUNIOR MATCHES.**  
On Tuesday at 2 p.m., the junior tennis members of the Methosin Club will visit the Langford courts to play eight of the local juniors in a third interclub match.

## PAY TRIBUTE TO FINE MARKSMEN

Citizens and Officials to Join In Honoring Bisley Team Members

Tribute to what is regarded as "the finest team Canada has ever sent to the National Rifle Association meeting at Bisley" will be paid at the banquet to be held in the Chamber of Commerce on Friday night by the District Council of the Canadian Legion.

The public is invited to attend the function, at which Lieut-General Sir Percy Lake, K.C.B., K.C.M.G., will preside. The affair is timed for 7.30 o'clock.  
Lieut.-Col. R. M. Blair, V.D., G.M., G.C., winner of the King's Prize at Bisley and the three Victoria members of the Canadian team, Lieut. D. Fyvie, Master Gunner H. Collins and Sergt. J. H. Regan, will be the guests of honor while representatives of the naval and military forces, the Provincial Government and the City Council will attend. Tickets for the banquet are limited and those who wish to attend should make application without delay to one of the secretaries of Canadian Legion branches in the city.

## Win Prizes At Exhibition

Eight handsome prizes were presented to local residents by Blue Ribbon Limited following a contest held in connection with the Provincial Fair. Mrs. Laip, 312 Collingwood Street, received a beautiful tea service, while the following were awarded silver cake baskets: Mrs. H. L. Roberts, 344 Linden Avenue; Mrs. Mayne, 1929 Macdonald Avenue; Mrs. Rendall, Kisbey Avenue.

## Cuticura Heals Face Disfigured With Itchy Pimples

"I had pimples all over my face. They were hard, sore and red and some of them were large and others small. Some of them festered and caused me to scratch. Scratching caused eruptions and the irritation prevented me from sleeping. They disfigured my face for many weeks. I tried different remedies without any results. I began using Cuticura Soap and Ointment and it was only a few weeks before my face was completely healed, after using two cakes of Cuticura Soap and one box of Cuticura Ointment." (Signed) Miss Harriet Hamilton, Box 772, Yarmouth, N.S.

Make Cuticura Soap and Ointment your every-day toilet preparation. They have a clear, sweet skin, soft, smooth hands and a healthy scalp with good hair.

### COUNCIL HAS LIGHT AGENDA

City Makes Preparations for Attending Union of B.C. Municipalities Meeting

A light agenda of routine business was mastered by the City Council in one hour and thirty minutes last night. Four land transfers, including one exchange of property, two sales, and one reversion by a former owner were authorized for property situated on Pearl Street, Balmoral Road, Moss Street, and Richmond Road. The city will receive \$1,697 in the aggregate, from local purchasers.

The Department of Marine and Fisheries at Ottawa has approved the city's plans for laying a fire alarm cable across the harbor to the Industrial Reserve. The corporation must pay an annual rental of \$1 for the privilege, and assume liability for repairs.

Additional public conveniences are to be established at the Goldstream Falls, at a cost of \$65. A grant of \$50 was awarded to the V.A.S.C. to help with a children's swimming gala to be held on October 5. J. A. Harrison was appointed acting city treasurer, to take the place of Edwin C. Smith, who is to take his holidays.

The council decided it would forego the pleasure of meeting on Labor Day, but would hold the next meeting on Monday, September 9, instead. From then on weekly gatherings will be in order.

**SUGGESTED LEGISLATION**

Alderman William Marchant, resuming his debate on the question of resolutions to be laid before the Union of B.C. Municipalities, to be held at Harrison Hot Springs on October 15, secured endorsement of two further motions, and defeat on two points.

The council agreed to seek wider investment powers for corporate sinking funds, still within the supervision of the inspector of municipalities, but capable of a greater yield than possible under the present plan.

The council also concurred in the decision to seek tax exemption from both government and municipal sources for all parks free to the use of the public, and set aside in perpetuity.

Alderman Marchant was reversed on a motion seeking municipal powers to borrow funds with which to erect houses on vacant property, in a plan of municipal housing construction; and also on a motion to advance the preparation of civic budgets to the end of the year preceding the one in which the budget was to apply.

The council received in camera the text of its legal advice as to its position in two damage claims, arising out of car collisions, one involving a fire truck.

**Local Union Holds Enjoyable Picnic**

### MAJOR JAYNES WILL SUCCEED ADJ. FULLERTON

Well-known Salvation Army Officer Returns for Third Term

Adjutant R. Fullerton, superintendent of the social work department of the Salvation Army organization in Victoria, left this afternoon for Winnipeg, following farewell meetings held last Sunday at the Citadel.

Major M. Jaynes will arrive on Friday afternoon to fill the vacancy caused by transfer of Adjutant Fullerton, and preparations are being made among local Salvationists to extend him a hearty welcome.

Major Jaynes is well known in Victoria, having held a number of offices in the local Salvation Army organization.

He was in charge of the Victoria corps for two years, and was transferred to the prairies ten years ago. He returned to this city about six years ago to direct the social service work and eighteen months later was recalled to the prairies. He has recently been divisional officer at Regina.

Appointment of Major Jaynes to Victoria sets a record in local Salvation Army circles, this being stated to be the first time that an officer has been reassigned here for three terms of service.

## FORMER PASTOR'S DAUGHTER BRIDE

Miss Florence N. Maclean Becomes Mrs. Roderick F. Mackenzie

The daughter of a former pastor of St. Paul's Presbyterian Church, Victoria West, was the bride of a pretty ceremony which took place in Vancouver on August 21 at the home of Rev. Dr. Hector N. Maclean and Mrs. Maclean, when their eldest daughter, Florence Nightingale, was united in marriage to Mr. Roderick Forbes Mackenzie, son of the late Capt. S. F. Mackenzie and Mrs. Mackenzie of Vancouver.

The nuptial ceremony was read by Rev. Dr. G. MacBeth, while the wedding music was rendered by Mrs. Arthur I. Brown.

While hydrangea, varicolored snapdragons and greenery in attractive profusion decorated the drawing-room where the wedding took place. Given in marriage by her father, the bride wore a lovely model of white chiffon with princess bodice and long close-fitting sleeves, while the skirt featuring the uneven hemline was bordered with Chantilly lace. Her exquisite lace veil, outlined with rhinestones, was worn up style and she carried a bouquet of American Beauty roses and lily of the valley.

Miss Irene Maclean of San Francisco attended her sister as bridesmaid, attired in a frock of pale yellow nylon made with drooping cape effect, and skirt with uneven hemline in ankle length with slippers of cerise satin. A picture hat of yellow mohair and tulle was also worn and her flowers were cerise and yellow snapdragons. Capt. Lionel Mackenzie, brother of the groom, acted as best man.

Following the ceremony the bridal couple were assisted in receiving the guests by Mrs. Maclean, who chose for the occasion a smart gown of black crepe satin draped from the shoulder and around the hips, and she wore a corsage of rosebuds. The wedding cake, decorated with the large wedding cake, was attractively arranged with pastel sweet peas in silver vases and tall tapers in matching shades. Mrs. J. H. Cameron and Mrs. Athol Lloyd presided at the tables, and assisting in serving were Mrs. Reginald McCurdy, Miss Mary Teepie and Miss Agnes Thomson.

Later, Mr. and Mrs. Mackenzie left on a honeymoon trip to Seattle and Vancouver Island, the bride traveling in a frock of figured roshanara crepe with coat of Hudson seal trimmed with coral squirrel, and hat of wine-colored velvet.

## WEDDING HELD AT HARMONY HALL

Nuptials Last Night of Miss Margaret Campbell and John F. Campbell

A large number of guests assembled last evening at Harmony Hall for the wedding of Margaret, second daughter of Mr. and Mrs. H. Campbell, of Broughton Street, and Mr. John F. Campbell, son of Mr. and Mrs. D. F. Campbell, of North Park Street. The ceremony was performed by Rev. Dr. J. Campbell.

For the occasion the Scottish and Canadian flags were draped in the hall and a profusion of yellow and mauve flowers were used in ornamentation. An archway of flowers from which was suspended a wedding bell formed the setting for the bridal party during the marriage service.

Entering the hall on the arm of her father, the bride looked smart in a gown of beige georgette with a lace hat to match, and carried a shower bouquet of Ophelia roses and carnations. She was attended by her sister, Miss Beth Campbell, who wore a frock of mauve georgette and hat en suite, and carried a shower of mauve and pink sweet peas. The groom was supported by his brother, Mr. Colin Campbell.

A four-piece orchestra supplied the bridal music and, later, the popular tunes to which the many guests danced until it was time for Mr. and Mrs. Campbell to leave by motor en route to California. On their return from the Menzies Apartments, Menzies Street.

The decorations at the hall had been arranged by Mrs. Arthur Cox, Mrs. Roy Copas, Mrs. Maxam and Mrs. Duncan Campbell.

Among the many wedding gifts received by the couple were a silver tea service from the Sons of Canada baseball team, and a mantel clock from the Public Works Department, Provincial Parliament Buildings, where the groom is employed.

Among the out-of-town guests at the wedding were Mr. and Mrs. D. Campbell, of Seattle, and Mrs. Levy, of Vancouver.

## Happy Valley

There will be a quilting bee at the home of Mrs. Robert Brown, "Mandalay" on Thursday evening, August 29, at 8 p.m. and it is hoped all members of the Luxton and Happy Valley Women's institute will be present.

Doctor R. H. Barker has returned from England and the Continent and has been holidaying with his family at his summer home in Happy Valley.

Mrs. L. A. Page and children have arrived home, after a trip to the eastern states, visiting Pittsburgh, New York and Newark.

M. A. Morrow has returned from a fishing vacation at Brentwood.

Recent arrivals at The Forest Inn, Shawanigan Lake, include: Miss Gwynne Freeman and Miss Muriel Whitehouse, London, Eng.; Mr. John Cheetham, Mrs. A. G. R. Colclough, Bruce Gray, Mr. G. J. Hall, Mr. Roland Halls, Mr. and Mrs. Albert T. Griffiths, Mr. John Martin, Miss Margaret, Mrs. J. S. Douglas, Master James Douglas, Miss Velda Holland, Miss Isabella Moir, all of Victoria; Mrs. H. H. Massy, Colwood; Mrs. Colin Radford, Seattle; Mr. G. Jones, Miss E. N. Anderson, Mr. and Mrs. J. V. Langford, Seattle; Mr. and Mrs. R. N. Norbotham, Ceylon, India; Mr. and Mrs. R. Martin, Mrs. M. J. K. Allen, Vancouver, and Mr. H. J. N. Rose, Victoria.

In connection with the ceremony at Crown Point, near Portland, Ore., on Saturday, in which the landing of Lieut. W. R. Broughton's British naval expedition on October 30, 1792, was commemorated with the unveiling of a bronze tablet, it is interesting to note that Mrs. Alice Thomson, president of the Victoria Connaught Ladies Guild for Sailors, and honorary regent of the Commodore Broughton Chapter, I.O.D.E., is a grand-daughter of Mr. William Robert Broughton, R.N. for whom Broughton Street in Victoria is named, and Mr. Henry Broughton Thomson, Mrs. Thomson's son, also bears the name of his distinguished great-grandfather. Mrs. Thomson was invited to attend and take part in the ceremony at Crown Point, but was unable to do so.

Guests at the Cadboro Beach Hotel recently included: Mr. and Mrs. T. Jackson, Winnipeg; Mr. P. Jones and daughter, Vancouver; Mr. and Mrs. R. Wiggins, Portland, Ore.; Dr. and Mrs. W. Marlon Adams, Seattle; W. F. Clement, Bellingham; R. J. Dawson, J. B. Patterson and H. A. Hayton, Vancouver; Mr. and Mrs. W. D. Cuming, Toronto; Mr. and Mrs. C. B. Henley, Vancouver; Mr. and Mrs. B. ## PARIS DECREES NORMAL WAIST

Belts Back to Their Old Line; Skirts Long and Trailing

Paris, Aug. 27—A woman's waist is again something more than a figure of speech in the world of style. After years of wandering belts have settled down in a comfortable curve called the "normal waistline," and there they will stay temporarily by almost unanimous agreement of the most important dress designers of Paris.

Final doubts about the upward flight of waistlines were dispelled yesterday when a famous woman dressmaker, who took normal waistlines out of fashion, put them back again.

Professional buyers stocking up here with next winter's Paris models, used every known scheme to get to see this particular style collection, which was generally agreed would decide whether Paris was going to uphold the higher waistlines.

LONGER SKIRTS  
Had the collection rejected the higher line there would have been some hope for stylish stouts and for the opponents of raised belts. Now there is almost none, as only one outstanding dressmaker shows a decidedly low waistline and his favorite method of solving the problem of where to place belts is to leave them off altogether.

Practically all the houses that have an important influence on fashions have now shown their winter models. The buyers know what they have to do are doing it frantically, each determined to be the first to introduce the raised waistline, long daytime skirts and ankle length or trailing evening frocks.

## In Paris... MME. PAYOT

world-famous beauty specialist

advises this 2-minute

beauty method

"I recommend to my clients the soap of palm and olive oils, which separately have great cosmetic value — and which, in the blending of Palmolive Soap, are doubly effective."

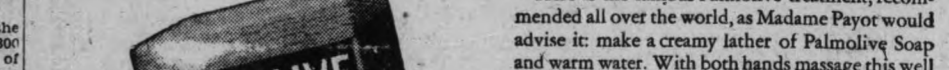

Dr. K. G. Payot  
12 RUE RICHELIEU, PARIS

FOR many years the elite of Paris have listened to the beauty advice of Mme. Payot, teacher of many beauty specialists.

Today, Mme. Payot advises the daily use of Palmolive Soap, in a simple 2-minute treatment, and warns against the harsh effects of the wrong kind of soap. Here is beauty news, indeed!

"Since I commenced to recommend Palmolive Soap to my clients, the difference is immediately apparent. This home cleansing rule gives the correct foundation for the use of my Creme No. 1 and Lotion No. 1."

Here is the famous Palmolive treatment, recommended all over the world, as Madame Payot would advise it: make a creamy lather of Palmolive Soap and warm water. With both hands massage this well into the skin two minutes. Then rinse, first with warm water, gradually with colder. Try it, tonight.

One Mother Says:  
It used to be that every time a shampoo was suggested, my young daughter would cause a scene which excited my sympathy as well as my annoyance. Finally, in complete despair after another disagreeable occurrence, Barbara unwittingly gave me a clue. "You don't understand, mama," she cried, "because you always have yours done in a shop." So I began to compare the professional methods she had so often seen used with me, and suddenly I saw light. The very next time a shampoo was necessary, I had a little note on Barbara's plate at breakfast. It read: "I wish to announce the opening of my new shampoo salon at the right of the stairs. May I expect you promptly at 9 o'clock? The latest methods will be used." Barbara giggled with delight and knocked politely on the bathroom door at the appointed time. I had arranged chairs, a foot-stool, a head-rest, and a rubber cape, and addressed her as Madame. Needless to say the thing went off in a satisfactory manner and shampooing is no longer a bugaboo.

Mr. and Mrs. Hermon Williams returned on Sunday from Vancouver and Seattle and have taken up residence on Roy Road.  
Commemorating the leaving of the first contingent for the Great War on August 28, 1914, the Lady Douglas Chapter, R.O.D.E., carried out a successful Heather Day yesterday. Though the returns were smaller than in any previous year, being only \$260, yet the chapter is appreciative of the public approval of its work and the response to its appeal.  
The various soldiers' organizations received complimentary bouquets of the lovely heather, which was sent down by George Fraser from his wonderful garden in Vichet. The chapter also presented bouquets of heather to Miss Mackenzie and to Mrs. Tolmie, and acknowledged the kind assistance of the press in the same way.

Schubert Club—After several much enjoyed social events of the summer the Ladies' Schubert Club commenced their winter's work last evening with a largely attended practice under the leadership of Frederick King. A very fine programme has been arranged for the forthcoming season, in which the club will be able to demonstrate, as in previous years, its fine pianissimo singing and tonal quality. It is fully anticipated that the music lovers of this city will accord the club even greater support than in the past.

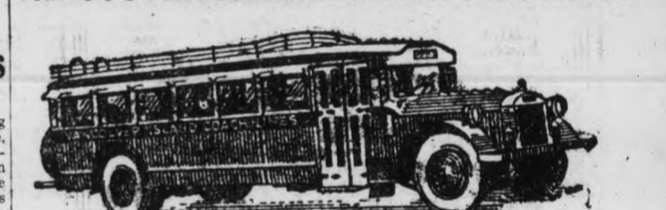

**Is this your boy?**  
**OF COURSE NOT!** Your boy is a little, laughing, romping chap of 2, with never a care in the world except to be at the door when daddy comes home at night. Besides, your boy will go to the university.  
You intend him to have a real chance to get on in the world—better than the one you had yourself. Even in the days to come this could never be *your* boy. But wait.  
*Suppose you pass on during the next few years. Who will send him to college if you haven't provided the money? Will strangers do it?*  
Boys grow up quickly and of course their wants increase as they grow. Your earnings will increase too, but when you are brought up suddenly one day with the need of finding say \$1,000 a year for four years or more, are you sure you are going to have the money?  
Back up your boy. He is worth it. Make a small annual deposit for the next few years on an Imperial Educational Endowment policy and the money will be ready with absolute certainty when it is needed—whether you are here or have passed on. There are many other benefits as well.

**NANCY PAGE**  
PETER STUDIES BEST WAY TO KEEP HIS DOG WELL  
By Florence La Gank  
  
Uncle Peter caught Joan just in time. The Page family had had chicken for dinner and Joan out of the goodness of her heart was handing a chicken bone to the Christmas dog which Peter had received. "No, Joan, not that bone. Never give a chicken bone to a dog. Some times we will let him have a good big bone to worry around with, but never a splintery one. Remember." And Joan promised to do so. She was so fond of the little Scottie that she was ready to do anything Peter said.  
He had been studying the care of dogs and came home one night all full of it. Nancy listened with an interested, albeit a trifle, amused air. When she had been so particular with the diet of baby Peter her husband had scoffed and asked how they ever raised babies before they knew about orange and tomato juice and spinach puree.  
  
But he knew exactly what kind of food a young puppy should have and seemed to think it made a real difference in its health. Nancy was decent enough not to say "I told you so," but she nearly bit her tongue to bits in doing it. Here are some of Peter's rules. Always have fresh water around where the dog can get it. If he won't eat the food put in front of him take it away. Don't leave it about. If he refuses food look at him. When his eyes and nose are running he should be taken to a doctor's hospital at once. Never try to cure a sick dog at home. Cook his food, giving him a raw carrot occasionally. Dogs like stew, cooked vegetables and dog biscuits which have many of the necessary foods in them.

# Westerners Expected to Make Strong Bid For U. S. Title

## THE SPORTS MIRROR

One of the greatest tournaments in the history of golf in Canada came to a conclusion Saturday afternoon at Jasper Park with Eddie Held, of New York, winning the Canadian amateur championship. The journey conducted under the auspices of the Royal Canadian Golf Association with the cooperation of the Canadian National Railway, was easily the most successful since the championship was organized. The C.N.R., on whose course the title play took place, had every little detail looked after and much credit is due them for their work.

Held, the new champion, was one of the most popular U.S. players attending the tournament. As a matter of fact, all the golfers from across the border were extended a rousing reception by not only the Canadian competitors but also by the C.N.R. officials. The golfers from across the border were disappointed at not being able to keep the crown within their borders, they took their desire like true sportsmen and after Held's victory over White he was heartily congratulated by all at the prize awarding.

One of the features of the tournament was the large number of newspaper men in attendance from all parts of Canada. The United States. Altogether nearly thirty scribes were present. As a sort of celebration of their first gathering at a Canadian amateur championship, plans were made for the organization of an International Association of Golf Writers. A committee composed of several of the present was struck for a constitution and minor details will be worked out immediately. It is intended to have all golf writers throughout Canada and the United States as members.

Clarke Corkran of Philadelphia one of the competitors in the tournament, and one of the best known amateurs in the United States, is now en route to Del Monte to take part in the U.S. amateur championships which commences next Monday. He reached the semi-finals of the Canadian tournament. Corkran claims the unique honor of being the first golfer to ever drive a ball off the deck of an ocean liner. While traveling from Paris to New York aboard the liner Arabie, which was later torpedoed during the war, in 1911, Corkran and a friend decided to go up on the hurricane deck and attempt to drive balls off the deck. It was exceedingly rough weather at the time, there being about a fifty-mile-an-hour breeze. The ship was rolling considerably. Upon arriving on deck they found it was impossible to keep the balls teed up owing to the rolling motion of the vessel. Corkran then conceived a bright idea and they teed the balls up on wads of chewing gum. They then proceeded to drive about thirty balls into the water. The Atlantic Ocean stated they got about 500-yard drives, the wind carrying the balls a tremendous distance.

Andre Routis, featherweight champion, will make his first appearance since he was knocked out by Al Singer, in a ten-round fracas with Johnny Datto, Cleveland Filipino, at Cleveland, Wednesday night. Of course, Routis's title will not be at stake. The little Frenchman is becoming known as one of the "business fighters" so common in the fight game to-day.

Followers of the Philadelphia Athletics, confident now that Connie Mack will acquire a pennant winner, are pulling for their favorites to beat the Cubs' record of 1906. In that year the Cubs, under the leadership of the late Frank Chance, won the National League pennant with 116 victories and thirty-six defeats for the wonderful percentage of .763. The Athletics of 1929, up until June 30, had traveled at a 750 pace, having a record of forty-eight wins and sixteen defeats. They then slowed a bit, winning twenty-two and losing nine games up until July 29. That was playing at a 709 pace and made their total seventy games won and twenty-five lost for a percentage of .737. If the A's are to equal the Cubs' record they have to win about three-fourths of their remaining games. Last year the Yankees led a lead of thirteen games after mid-season were in a fair way to equal the Cubs' record, but a slump all but wiped out their lead and the Yanks were lucky to beat out the Athletics for the pennant.

Pete Sarmiento, former bantam champ, is running an elevator in San Francisco. Not the first pug who hit the high spots.

Ray Barbuti, ancient plauge of the A.A.U., is in the insurance business in New York. Ray would like to write up the A.A.U. but he hasn't any policies against bonehead plays.

John McGraw has gone on a scouting trip. That sort of concedes the championship to the Cubs, or somebody.

When you pay fifty cents to see Babe Ruth and Lou Gehrig knock out homers it's getting a pair of fine socks pretty darn cheap.

When Pittsburgh trimmed Boston 1 to 0 recently it was Jess Petty's victory—but it counted in the standing just the same.

## SONS MEET JOKERS IN FINAL GAME

Ball Teams Hook Up To-night In Deciding Game for City Championship

Noble and Stickney Will Be Opposing Pitchers; Sons Lose Second Baseman

In the game to decide the championship of the Senior Amateur Baseball League, the Sons of Canada, defending champions, and Jokers, will clash at the Royal Athletic Park to-night, commencing at 6 o'clock. "Allie" McGregor will be behind the plate with "Cotton" Brynjolfson officiating on the bases. One of the largest crowds of the season is expected to witness the final game of the local play-offs.

At present the teams have played five games with each club winning two, while the other was drawn. The winner of to-night's game will represent Victoria in the play-offs against the mainland to decide the British Columbia Class A championship. Both clubs have been dishing up a first class brand of ball in the series, and the final battle should be a keen affair.

Jack Noble, who has twirled the Sons to two victories in the series, will go to the mound for them. Noble, besides being a first class pitcher, has helped his club out considerably by his effective work with the bat. He will be opposed by Wes Stickney, the Joker's classy little southpaw. The portender of the Sons in his last performance against them, and now hopes to make it two straight.

The Sons will be weakened to-night through the loss of "Kim" Campbell, their star second baseman, who became a benighted last night, and is now en route to California on his honeymoon. His place will be filled by Tommy Forbes.

## Local Dogs Win Honors Up-island

Lindy and Gypsy, pointer dog and bitch owned by J. S. Oliphant and S. McTaggart, respectively, of this city, were high winners at the annual dog regular weekly shoot of the Victoria and District Rifle Association which was held at Hehl's to-morrow instead of the week-end.

## RIFLE SHOOTING

Since the machine-gunners will occupy the ranges on Saturday, the regular weekly shoot of the Victoria and District Rifle Association will be held at Hehl's to-morrow instead of the week-end.

## M. Niemzowitch Is Chess Champ

Carlsbad, Aug. 27.—M. Niemzowitch of Denmark, last night won the International Chess Masters' tournament by defeating Dr. Tartakower of France. Niemzowitch's score was 15 after his victory, against 14½ for Jose R. Capablanca of Cuba and Rudolf Spielmann of Austria.

## Detroit Purchases Montreal Pitcher

Montreal, Aug. 27.—Belong Longest, of the Montreal Stars, and one of the stars of the International League, yesterday was sold to the Detroit Tigers of the American League. He will report to his new club at the close of the International League season.

MACK AND I NEVER PLAY EVEN—SOME DAYS I GIVE HIM 18 STROKES AND OTHER DAYS HE GUES ME 18 STROKES.

WHAT'S THE BIG IDEA, KRABBY?  
WE DO THAT TO EVEN THINGS UP—WHEN MACK'S KEEPING SCORE HE HAS TO GIVE ME A STROKE A HOLE AND WHEN I'M KEEPING SCORE I HAVE TO GIVE HIM A STROKE A HOLE!

THE HOME RUN PARADE  
With only two members of the Big Six scheduled to play yesterday it devolved upon Hornsby to uphold the honor of the organization, and he did it in fine style. The Rajah went to bat four times against Cincinnati and got a home run, a double and a single, his net gain in the batting averages being three points, lifting his mark to .362. Chubb Klein failed to hit in three attempts against St. Louis and dropped two points into a tie with Babe Ruth for the cellar position with .352.

## Sir Thomas Is Confident of Capturing Cup

London, Aug. 27.—Sir Thomas Lipton, noted British sportsman, was in an optimistic mood as he left for the United States to-day to make final arrangements for his fifth attempt to win the America's Cup, premier yachting trophy, for Great Britain.

"I hope I come back with the cup this time," said Sir Thomas. "I have never felt so confident about it."

## Regatta to Be Staged At Bay To-morrow

Lengthy Programme Drawn By Cordova Bay Recreation Club for Annual Meet

Keen Competition Expected In Land and Aquatic Events; Many Novelties Are Billed

Track events, swimming sprints, speed-boat races and scores of novelties promise to make the lengthy programme drawn up by the Cordova Bay Recreation Club for its annual regatta to-morrow one of the most successful ever staged by the association.

Over forty events in both land and aquatic sections have been chosen for the sports day. Promptly at 1 o'clock the first race will be run off on the beach.

This will be followed by sprints for girls and boys of all ages. Sand castle building contests, ladies' balloon race, sack events, log-sawing competitions and several other novelties are expected to add greatly to the hilarity of the event.

## WATER EVENTS

Following the land sports, competitors in the aquatic events will take to the water. This part of the programme will commence with races for young children and will continue with canoe, boat and "sea flea" races.

In both the runabout and speed classes the outboard motor races promise to be the sport of the day. For weeks the entries have been churning up the waters of the bay in preparation for the meet, and are now in good command of their craft.

## THREE TROPHIES

Three trophies—the Norris Cup and Medal for the men's single dinghy event over the 200-yard course, the McMorran Cup and Medal for ladies' single dinghy event over the same distance, and the Gibbs Trophy for the boys' under eighteen years single dinghy race over 200 yards—will be up for competition during the meet, and should create a great deal of interest in the races for which they have been presented.

## EVENING PROGRAMME

At night the beach will be made brilliant with a huge bonfire and illuminated water craft. These boats will form up in procession between 8 and 9 o'clock. First and second prizes will be given for the best decorated in the event.

## COMMITTEES

The officials and committees in charge of the event follow:  
President, F. Doherty; vice-president, P. B. Gibbs; treasurer, Miss M. Hallam; secretary, G. W. Russell.  
Committees—Finance, Mrs. Gibbs, chairman. Prize, Mrs. F. Goddard, chairman. Programme, A. Peadar, chairman and main executive. Course and rafts, C. Cameron, chairman. Advertising and transportation, G. A. Stevens, chairman.

## SECOND PLACE TO BE DECIDED

Tillicums and Hudson's Bay Meet in Important Cricket Match To-morrow

In the Wednesday League cricket matches scheduled for to-morrow, the Tillicums and Hudson's Bay will meet at Beacon Hill, while the Five C's will take on the T. and V.'s at Mount Tolsie. Both matches will get under way at 2:30 o'clock.

The Five C's are at present leading the league by a margin of one match over the Tillicums and Bays, who are tied for second place. During the second half of the league the Five C's have not lost a match, while the clubmen and Bays have each dropped one. The latter two will fight it out for second place in the league standing to-morrow.

## CRICKETERS TO MEET

Important business will be discussed at a general meeting of the Wednesday Cricket League in the Tillicum Club this evening at 8 o'clock. All clubs in the league are requested to have representatives at the parley.

## In the Softball World

With three games billed for the league by a margin of one match over the Tillicums and Bays, who are tied for second place. During the second half of the league the Five C's have not lost a match, while the clubmen and Bays have each dropped one. The latter two will fight it out for second place in the league standing to-morrow.

This evening The Province will clash with Plumley and Ritchies, runners-up for the City Softball League title, at Central Park at 6:15 o'clock. Bob Whyte will umpire.

The winners of this fixture will meet Hillclimbers in the next round at Victoria West Park to-morrow evening at 8:15 o'clock, where Youson and Fairall will umpire. At the same time Samlich "A" will take the field against the Foresters at Central Park with Saxon keeping tab on the play.

## WINNER OF CANADIAN GOLF CROWN

The jaunt around the mile oval was made in 1:37.25, and was won by \$15.00 to the winner, My Dandy was the well played favorite, and paid only \$5.50 for a \$2 ticket.

As Lincoln Fields swung open its gates for a month of racing, the thoroughbred sport at Saratoga entered into its last week, leading up to the twenty-fifth running of the Hopeful Stakes.

## FAVORITE FEATEN

The Wash Day programme featured the Burghomester Handicap, a gallop of a mile for three-year-olds and up. Prince Pat, racing under the silks of the Three D's stable of Texas, led Sunvir, the 11 to 10 favorite, home by three lengths with Sweet Verberna ten lengths back for third. Stick Around was fourth and last. Race group was such a close race that the odds were 1 to 1. Jockey C. E. Allen was reinstated at Lincoln Fields and celebrated by winning the second race on Old Kickapoo. Allen was suspended by the Hawthorne stewards for rough riding.

Vancouver, Aug. 27.—Fandion Queen, three-year-old filly owned by Ramsay & Rowe and ridden by Richardson, won the fifth event on the opening card of the last week at Brighouse Park yesterday afternoon, taking the race with ease by four lengths and recording her fourth win. Hill and Hill, three-year-old gelding owned by C. C. Emmert, won the fourth to pay off with \$21.10 for \$2 straight tickets.

Oregon Mist also came through with a nice price in the third, giving her straight betters \$17.80 for each \$2 bet. First race, six furlongs—1. Short Out Jr., \$10.90, \$3.10, \$2.50; 2. Greenhill, \$2.20; 3. Betty O'Brien, \$2.50.

Second race, six furlongs—1. King Flame, \$10.90, \$3.70, \$2.70; 2. Lady Spain, \$16.10, \$5.60; 3. Greenshield, \$3.40.

## Thompson Is Named Head Of Football

Former Manager of Victoria Wests Elected President of V.D.F.L.

Fred Oliver is Secretary; Shortage of "Refs" is Worrying Association

For the next twelve months the work of the Victoria and District Football League will be guided by Bill Thompson, former manager of the Victoria West First Division Club. At the annual meeting of the organization held last night at the Y.M.C.A. Thompson was the unanimous choice for the presidency. Fred Oliver, secretary of the Referees' Association, was selected as secretary of the league. Although neither of the new officers were present at the meeting, it is expected they will accept their positions.

In discussing the prospects for the coming season the league learned that last year's six clubs, Victoria City, who won the championship, Victoria West, Saanich Thistles, Five C's, Esquimalt and Westholms, will be in again this season. The latter club will play under the name of the Jokers.

Tuesday, September 3, was set as the closing date for entries, while it is expected the season will open on Saturday, September 14.

## FORM SECOND DIVISION

The delegates discussed the question of organizing a second division. It is now several years since a second league has been in operation. It was decided to call for entries for this league with the closing date on September 3.

An important question brought up last night was the problem of obtaining referees for the coming season. At the present time McMillan and Robb are the only two who will be ready for duty when the season begins. F. C. Payns and Ralph Alcock, who referred last year, will not be eligible as they are now members of the Lower Island Football Association. Fred Oliver has decided to lay aside his whistle, while P. J. Woodley has left the city.

Any person who thinks he is capable of refereeing matches this season is requested to get in touch immediately with L. G. Gray, secretary of the L.F.A., 2828 Blackwood Street.

Yorkshire 304 (Old-Boys 130); Surrey 354 for six wickets (Sandham 163); Leicestershire 368, Essex 162.

Derby at Glamorgan, Derby 345. Essex 26 (Gunn 109), Sussex 292. Hants 69 and 52 for three wickets; Lancashire 99.

Northants 316 (Bakewell 199) and 165 for three wickets; Worcester 172. Middlesex 400 (Robins 106); Somerset 345.

South Africa 491 for seven declared (Dillon 157); Kent 290 for four wickets.

The position of clubs in the English country cricket championship table yesterday was:

	P.	W.	L.	Pct.
Nottingham	25	13	2	144
Yorkshire	25	9	1	137
Lancashire	26	10	3	132

# Freak Home Run And Great Rally Gives Cubs Win

National League Leaders Call On Their Great Batting Strength to Bring Victory Over Cincinnati; McMillan's Ordinary Single Bounces Into Stands For Circuit Clout; Hornsby Scores Three Hits, Including His Twenty-ninth Home Run; Phillies Win Hectic Game From Cards.

When Cub pitching fails, Joe McCarthy's batsmen come to the rescue with a salvo of base hits to keep Chicago well in advance of any National League pursuers.

It was a terrific batting rally in the eighth inning yesterday that enabled the Chicago pennant hopes to down the Cincinnati Reds 9-5 and stretch their lead over the second-place Pittsburgh Pirates to thirteen and one-half games. Until the fateful eighth, Eppa Jetha Rixey, elongated left-hander, weaved an unceasing spell over Cub bats, while the Reds were touching Charley Root for a run here and there, enough, it seemed, to win the game. Until the eighth Rixey granted only six hits, one of which was Rogers Hornsby's twenty-ninth home run of the year in the fourth. In the Reds' half of the eighth Root was touched for two runs, making the count 5-2.

Then the Cub swatmen got busy. A walk and two singles and Rixey was replaced by Rube Ehrhardt. Five more hits rolled off Cub bats, one of them a freak home run by Norman McMillan, with the bases filled. This blow began life as an ordinary single but bounced into the stands for a four-bagger. All told the Cubs scored seven times and the game was over. Hornsby and Kiki Cuyler were the most active batsmen with three hits apiece.

A crowd of 35,000 turned out to see the battle.

**A REAL BATTLE**  
In the only other National League game of the day, the Phillies nosed out the St. Louis Cardinals 7-6 in a hectic fray, decided in the last two innings. The Phils, trailing by 6-2 at the end of the first half of the eighth, came within one of a tie when Davis hit a home run with two on. In the ninth there singles and a wild throw by Ernest Ostrat gave the Phils two more runs and the old ball game.

Haid pitched the whole distance for the Cardinals although he was socked for fourteen hits. Claude Willoughby was hit freely by the Cards in the early innings and finally retired in favor of Daley who received credit for the victory. One of the Card's eleven hits was Jim Bottomley's twenty-sixth homer of the year.

The American League had a day off while eastern teams were getting back to their home bases from the west.

**DECISIVE VICTORY**  
Toronto, Aug. 27.—Willis Davis, flyweight from Charlevoix, Pa., scored a decisive victory over Luis Carpenter of Cleveland, Ohio, in a hardline bout at the Arena Gardens here last night. Davis outboxed and outboxed Carpenter, earning a sizeable point margin in six of the ten rounds, with two even. The Filipino showed a willingness to plug it out, but Davis was too crafty.

## English Speed Miss —By Jimmy Thompson

September 2 should be a red-letter day at Detroit, Mich., for speed-boat enthusiasts. A great deal of interest is focused around Miss Betty Carstairs, the famous speed miss and her motorboat, Estelle IV, which she has brought from England in the hope of breaking all world records. The Estelle IV was built especially for Miss Carstairs and is powered by a 3,000-horsepower engine. Miss Carstairs tried her boat out on the Muskoka Lakes, Ontario, before having it shipped down to the border city. The English girl's most dangerous rival is James Talbot with his 1,000-horsepower, two-engine speed boat. It is claimed that Talbot's boat will go 100 miles an hour easily. With two boats of such high-powered rating in the races there should be plenty of thrills and maybe some spills.

## Graham Winner Over Spaniard

Philadelphia, Aug. 27.—Busby Graham of Utica, N.Y., recognized by the Pennsylvania Athletic Commission as bantamweight champion, won the decision from Vidal Gregorio of Spain, in a torrid ten-round battle last night. Both were over their bantamweight limit, Graham scaling 120 and Gregorio 119.

## Argos Will Meet Eastern Lacrosse Champs To-night

Winnipeg, Aug. 27.—Argos of Winnipeg and Oshawa, lacrosse champions of Eastern Canada, will meet here to-night in a sudden-death Mann Cup game and indications point to a record attendance. The face-off will take place at 5:15 p.m. Since their arrival yesterday morning the easterners have had two workouts and railbirds were greatly impressed by their manoeuvres. They have a fast team and handle the ball with brilliant accuracy. The general feeling among local fans is that Argos will have to travel fast to beat the Oshawa outfit. At the conclusion of this evening's game the winners will entrain for Edmonton to meet the Native Sons' team, and the winners will go to New Westminster, where the finals will be played September 2 and 4.

## CROWN PRINCESS OF TENNIS

Brookline, Mass., Aug. 27.—Seeded U.S. and foreign doubles teams striving for titular honors, in the forty-eighth U.S. championship tennis tournament yesterday, overcame strong opposition in the opening play here on the Longwood courts, with but one exception. Yesterday's results included: Berkeley Bell and Lewis White, Texas, defeated the Anglo-American team of Guy Cooper and Paul Diricou, 7-5, 9-7, 6-1. John Van Ryn and Wilmer Allison defeated E. W. Fiebleman and J. B. Fenno Jr., 6-3, 6-0, 4-6, 6-1. David Jones and R. Murphy defeated Milton Goggins and H. Tovea, Southwestern champions, 6-2, 6-4, 9-7. George O'Connell and Fred Royer, Chicago, won by default from Holland McTye and D. Cram, Nashville. W. H. Austin and J. S. Oliff, England, won by default from Maurice Bayon and G. Feuer, University of Florida. G. M. Lott Jr. and J. H. Doug Santa Monica, California, defeated B. Barnes, Austin, Texas, and Phillip Neer, Portland, Oregon, 6-2, 6-1, 7-4. Bradshaw Harrison, San Bruno, California, and Kenneth Appel of Orange, N.J., defeated J. O. Ryall and Gordon Shields, Vancouver, B.C., 6-2, 6-4, 6-3. E. R. Avery and E. M. Buzzard, England, defeated D. K. Murray Jr. and C. Sutter, Atlanta, Ga., 4-6, 6-3, 6-2, 6-2. William T. Tilden II, Philadelphia, and F. T. Hunter, New Rochelle, defeated A. B. Sherid and M. E. ## Michelson---Wizard of Light

Famous Physicist, at Seventy-six, Prepares to Determine More Exactly the Speed of Light Rays

Pasadena, Cal., Aug. 27.—Dr. Albert A. Michelson, at seventy-six, is preparing to conduct new experiments to determine the exact velocity of light, which he already has measured more accurately than any other human being.

This world-famous physicist is the supreme authority on light, the swiftest thing that travels. His curiosity about light seems insatiable and before he was thirty, he had measured its speed with amazing accuracy. Since then he has done it still more accurately.

A few years ago, by flashing a light from the mountain top to another eighty-two miles away, and back again, he was able to check the velocity of light with an error of only ten miles in 186,000 miles.

But that day error was enough to arouse discontent in a mind such as his. And so, as his latest great contribution to science, we find Dr. Michelson preparing to conduct the most intensive experiment of the kind ever made.

**WILL EXPERIMENT UNDERGROUND**  
This time the tests will be made underground in a mile-long vacuum tube, now being constructed. Dr. Michelson will flash a light back and forth in the tube by means of mirrors until the ray has been increased to four or five miles in length. He is confident measurement of this ray will refine his present value of 186,284 miles a second for the velocity of light.

The scientist is reticent about speaking of the new experiments. "I would rather not say anything until I have completed the vacuum tube which I believe will accurately complete the light tables," he said.

"I do believe though, that the results of my new experiments will have a far-reaching practical application. In fact, it is highly probable they will revolutionize present surveying methods. Under the present surveying system it would take about two years to survey a tract of land 250 miles long. By my method of flashing light at different points along the line and computing the time it takes the light to travel, I estimate it would be possible to make the survey in a few days."

Dr. Michelson lives in terms of light. It is to him what colors are to a painter. He can't look at an insect's wings or a rainbow without thinking of them in terms of light. He interprets the cosmos with it. So ingenious is he that science has

## HUDSON'S BAY AIDS BRITISH SETTLERS HERE

Plenty of Room in Canada For Men Willing to Work Says Charles V. Sale

"There is plenty of room in Canada for men with a willingness to work and of a peaceable disposition," said Charles V. Sale, governor of the Hudson's Bay Company, on the occasion of his visit of inspection with George W. Allan, chairman of the Canadian committee, and other officials of the company.

"The majority of farmers who apply to us for help express preference for men of the British race," went on Mr. Sale. "This I think disposes of the fallacy that British settlers are not wanted in Canada."

"Much has been said about the influx of settlers of other nationalities. As to these, let us not forget that they have taken the opportunity and occupied the land which lay open to our own people, and that thereby they have enriched the commonwealth. But Canada being a British Dominion with its heritage of language, law and ordered liberty—no less valued by the people of other races than by our own—desires to maintain these traditions. It is in meeting this desire that the Hudson's Bay Company Overseas Settlement Limited is taking its share."

Mr. Sale said he hoped to see the improvement in general conditions here since his last visit, and to observe a definite spirit of optimism.

**STORE EXPANSION**

The governor points to the extension of the department store here as the best evidence of the confidence of the Hudson's Bay Company in Victoria. The company, he said, felt that the expansion of the city and district warranted increased facilities at the Douglas Street store.

A survey of the company's land holdings is in progress here to grade unsold properties according to future possibilities. Mr. Sale expects to return to Canada late this year or early in 1930.

His son, George S. Sale, will pass through Victoria early in October en route to Kyoto, Japan, to attend the Institute of Pacific Relations Conference to be held from October 23 to November 9.

## HON. W. ATKINSON WILL OPEN FAIR AT SAANICHTON

Finest Exhibition Yet Presented Being Organized By Saanich Farmers

Hon. William Atkinson, Minister of Agriculture, will open the sixty-first annual exhibition of the North and South Saanich Agricultural Society on Wednesday, September 18, at Saanichton Hall.

The officers and directors have as their objective presentation of a display of Saanichton products which will excel in quality and number any of the remarkable collections shown in recent years. To this end the strong committees have labored unceasingly in recent weeks, and H. E. Tanner, president, is confident that the coming exhibition will be an outstanding achievement.

New buildings have been added, the grounds have been improved and a new dancing floor has been installed for the Highland dancing competitions, now such a popular feature of the annual exhibition at Saanichton.

Among numerous silver cups and special prizes are: J. W. Tolmie Silver Cup and Miniature Cup, donated by Hon. S. F. Tolmie for collection of vegetables; silver challenge cup donated by H. E. Burbridge for dairy herd; J. R. Scobie cup for pure bred jersey cow; special prize donated by the Vimpa Jersey Milk Limited for jersey grade cow; Hon. S. F. Tolmie silver challenge cup for team of draft horses, not less than 1,600 pounds; B.C. Goat Breeders' Association challenge cup for herd of three pure bred goats; R. P. Butchart challenge cup for dairy herd of goats; J. R. Scobie silver cup for pen of five spring lambs. Challenge trophies in the rabbit section include: Totem Rabbitry cup for Chinchilla weighing over seven pounds; Farm Rabbitry cup for Senior White Flemish; Woodbine Rabbitry cup for heavy breed pair and for light breed pairs. The women's and children's sections offer many special prizes.

A feature this year will be a special prize of \$10 for school comic bands, donated by Beattie and Horth.

The Highland dancing events will offer several more medals.

### CHILDREN'S SPORTS

The annual school children's sports will be held on the afternoon of Visitors' Day. Two silver cups will be competed for. The Northwestern Creamery of Victoria has donated a cup for the school of two rooms or less making the most points in the sports' programme. The cup for making the most points in the sports has been donated by David Spencer Limited. Both cups are to be won three successive years.

The annual ball of the association will be held in the Agricultural Hall, Saanichton, on Friday, September 20. Dancing will be from 8 p.m. to 1 a.m. with Heaton's orchestra in attendance.

### Glen Lake

Miss Margaret Whyte entertained a number of her young friends Friday evening at the summer home of her parents, Mr. and Mrs. D. H. Whyte, "Glen Lake." A treasure hunt preceded other games around a camp fire. Refreshments were served at the close of the evening. The guests included: Miss Margaret Whyte, Victoria; Misses Josephine Reid and Sheila Tait; Messrs. Ken Reid, Weldon Reid, John Blair Reid, Ronald Blair Reid, Bob Tait and Bob Whyte.

Mrs. H. Hunter and children of Victoria spent a few days as guests of Mrs. Jack Trace, "Glen Dale Cabin."

Miss Margaret Wright of Victoria was the guest last week of Miss Margaret Whyte, "Glen Lake."

Mr. and Mrs. Lawrie Fee, with their son, Arnold, and daughter, Marjorie, and their niece, the Misses Fee, of Victoria are spending August at C. Hutchinson's cottage.

**BUILDING COSTS HAVE RISEN**  
from 20 per cent to 35 per cent since the spring, which makes existing houses more valuable. One who can see the possibilities of modernizing a more or less old house can save hundreds of dollars by purchasing one of these.  
Take this five-room bungalow, with basement, furnace and range, which we can sell at \$2,800. Stucco exterior, redecorate the interior, white-paint the paneling and other woodwork, put a new combination sink and laundry tray in the kitchen, a built-in bath tub in the bathroom, and a few extra electric outlets, at an estimated cost of \$600, and you have a property at a cost of \$3,400 of which the house alone would cost \$4,000 to build to-day, exclusive of the lot, garage, electric fixtures, blinds and fencing. Very easy terms can be given. We have scores of similar opportunities.

## Aeroplane Output For Six Months Runs \$25,000,000

Cleveland, Aug. 27.—There were 1,900 commercial and military aeroplanes with retail value of \$25,000,000 produced in the United States during the first six months of 1929, according to Aeronautical Chamber of Commerce.  
Report shows that during first six months eighty per cent of total number of planes produced in 1928 were manufactured while military plane production lagged behind last year's figures. Only forty-three per cent of total 1928 military production was reached during the six months period. Adding aeroplane parts the total valuation of planes and spare parts produced during the six months was estimated at \$31,289,000.

## FIREMEN IN TUG-OF-WAR WITH DEATH

It was a grim tug-of-war with death that these New York firemen staged when a building undergoing repairs collapsed, pinning workmen beneath the debris. Here you see a steel girder being pulled off the wreckage to speed the search for victims of the cave-in. More than ten persons, including passersby, were injured; several were missing.

## GRAF DIPS TO SKYSCRAPER

## HUNDREDS KILLED IN PALESTINE

More Than 100 Jews Killed In Fighting; Equal Number of Arabs

British Troops Disarm Jews, But Arabs Smuggle Arms In From Transjordan

Jerusalem, Aug. 27.—Deaths of Jews in four days of bitter race warfare with Arab Moslems to-day had mounted to more than 100, of whom fifteen were students from the United States at the Rabbinical College at Hebron. Deaths of Arabs were assumed to have been as numerous. Hundreds suffered from wounds.

Southern Palestine—momentarily seemed quiet, but new fierce outbreaks between the wild-bearded Islamic tribesmen and Jews were reported from Northwestern Palestine, particularly in the vicinity of Haifa. There were recurring attacks at both Tel Aviv, all-Jewish city, and nearby Jaffa (Joppa), where British police fired on a crowd attacking the Government offices and killed five Arabs and wounded thirty. In two attacks at Tel Aviv, six Jews and more than twenty Moslems were killed and more than twenty Jews were wounded.

The Government began to disarm the Jews, but it was understood the Arabs were continuing to obtain arms and ammunition from Transjordan.

One hundred British soldiers were here to-day, and others were en route from two British warships anchored at Jaffa. The forces are equipped with machine guns, armored cars and aeroplanes.

Police in Jerusalem has largely developed upon a force of 600 British volunteers who are patrolling streets night and day to maintain order. With the appearance of British bayonets in the Holy City the situation became somewhat easier, although hundreds of Jews remained in hiding, afraid to appear on the streets.

## PUBLIC FUNERALS

Jewish dead, numbering twenty-seven, were buried last night in a second common grave, similar to the first tomb dug in the side of the Mount of Olives for the bodies of sixteen slain Jews. One of the six victims of the fighting at Tel Aviv was said here to be the son of the noted Jewish philanthropist, Dr. Leo Goldberger.

## TWO BRITISHERS KILLED

Two Englishmen were killed in disturbances at Ain Carim, an Arab village near Jerusalem. Bedouins attacked the Jewish colony of Betsapha in Ezereldon, their sheik being killed in the action. Five or six more Jews were killed in a new outbreak at Kastina Colony.

Forty Arabs, members of a group known as the "Black Legion," were arrested and taken to Haifa, where many other disturbances have been interned. Haifa was attacked both Sunday and yesterday and many Jews were wounded, and some were killed.

At Beisan all Jewish houses were burned, one Jew was killed and twenty-one wounded. Rehoboth, south of Jaffa, was attacked, but no casualties were reported. The Jewish colony at Artuf, between Jerusalem and Jaffa, was set on fire.

Considerable looting has been done over all Palestine and Arab atrocities were reported from Moza, but not confirmed. Many Christians in Jerusalem marked their houses with blue crosses as a sign the buildings harbored neither Jews nor Moslems.

There is a scarcity here of medical supplies and food. Prices of the latter have reached almost famine levels. The Jerusalem Jewish Communal Board has started a fund to maintain the refugees, who have come here from all Palestine.

## WALLING WALL CONTEST

The disturbance began last Friday

## MONTANA FIRES ARE CONQUERED BY LARGE CREWS

Missoula, Mont., Aug. 27.—Aided by rain, firefighting crews to-day had every fire in Montana except the disastrous Half-Moon outbreak under control to-day. The Half-Moon fire was still spreading, but additional crews had reached the scene of the advance, and it was expected that the fire, which has burned over approximately 100,000 acres, would be placed under control to-day or to-morrow.

## BENNETT'S TOUR OF PROVINCE IS NEARING END

Cranbrook, B.C., Aug. 27 (By Canadian Press Staff Correspondent).—On the eve of the close of his tour in British Columbia, Hon. R. B. Bennett will speak to-night at Kimberley. The Federal Conservative leader left here this morning to fill his engagement. At a meeting here last night Mr. Bennett dealt with tariff questions, particularly stressing his view in favor of restoration of the anti-dumping duty.

## Superfine Fir Flooring

THROUGH selected stock, rigid grading and a new precision machine, Lemon, Gonnason now offer home builders a vastly improved softwood flooring. In the manufacture of Superfine Fir Flooring, most of the disadvantages of ordinary softwood flooring are eliminated.

This new flooring is absolutely clear-grained. It is kiln-dried to an exact moisture content . . . has a new bevel-tongue joint which permits a perfect fit without hammering into place and . . . the silky-smooth finish of fine furniture.

These features mean a beautiful floor, a surface which takes finish evenly and withstands hard wear . . . joints which stay tight. It may be laid with equal satisfaction in new homes or over old worn floor.

## NEW OIL RUMOR HAS TO DO WITH PRINCE'S RANCH

Not Known Who Would Benefit if Report About EP Ranch True

Ottawa, Aug. 27.—The reported discovery of oil on the Prince of Wales's ranch at High River, Alberta, if substantiated, may or may not benefit the Prince, depending upon the action he has taken. In a recent interview the owner referred to the discovery of oil in the neighborhood, but suggested he could not profit since the petroleum and natural gas rights and the mineral right of the property were vested in the Government.

**LEASE PLAN**  
The mines branch of the Department of the Interior, however, says that if oil has been found the Prince may, by application to the Dominion lands agent in the district, secure a lease on the petroleum and natural gas rights on his land. The title of the EP Ranch is an old one and it is also possible that when he purchased the title he may also have acquired the mineral and petroleum rights. In that event, he may benefit from the discovery of oil simply by continuing to pay the yearly rental charge. There is, however, another possibility which would not prove so advantageous to the Prince. If someone, learning oil had been located on the EP Ranch, presented the first application, the Government would be forced to yield the petroleum and natural gas rights to him, providing the proper fees were paid.

The most probable situation, in the opinion of officials, is that a lease of the rights has already been secured by the Prince in the name of one of his officials or members of his ranch staff.

Tea was probably the first artificially concocted human drink. The tea habit in China dates back 4,700 years.

## NEWS IN BRIEF

Accounts totaling \$2,033.97 were authorized paid by the directors of the Victoria and Island Publicity Bureau to-day.

The Gospel Tabernacle of the Christian and Missionary Alliance, Yates Street, will hold a special prayer meeting for the Jews on Wednesday afternoon at 3 o'clock. Rev. Daniel Walker will conduct the service.

The Ward One, Saanich, Exhibition will be opened at 3 o'clock to-morrow afternoon by Rev. William Crouch. Exhibitors are reminded to have all displays entered and delivered at the hall not later than 10 o'clock in the morning.

Ticket number 665 won the silver tea service which was given free in connection with the W. H. Malkin Company's display at the exhibition last week. The holder of this ticket is asked to call at 1211 Wharf Street.

When his automobile was in collision with another vehicle, driven by Bennett, 798 Lampson Street, on North Quadra Street, last night, Walter Trask, McKenzie Avenue, sustained bruises to the head and body which necessitated his removal to St. Joseph's Hospital, where he was attended by Dr. James F. Grant.

A 16th Canadian Scottish Intercompany shoot is to be held on the morning of Labor Day for the Little and Taylor Shield, A. C. M. Smith, acting secretary of the Regimental Rifle Association, announced to-day. Company commanders are asked to see that their men attend their remaining practice so as to be in top form for the match.

A meeting of Ward Two, Saanich Cottage Gardeners' Society will be held at the home of F. Crowe, 3368 Douglas Street, on Friday next at 8 p.m. to make final arrangements for the annual exhibition to be held at St. Mark's Hall on Saturday, September 7. Entry forms are now ready and can be obtained from the secretary, W. L. Llewellyn, 3710 Lincoln Road; or from Mr. Crowe, 3368 Douglas Street.

Combination of the Musical Festival Spring Flower Show and Home Products Fair, along with other attractions, such as a golf or bowling tournament to provide a spring festival in Victoria will be discussed at an open meeting in the City Hall to-night. The gathering has been called for 8 o'clock by the Vancouver Island Horticultural Association, and it is expected representatives of the city, Chamber of Commerce, Publicity Bureau and other interested bodies will be present.

A new angle on the operation of airfields was brought to the attention of the City Council last night by the board of the Jubilee Hospital. The hospital stands close to the airfield of Lansdowne Road and machines rising at low altitudes from their take-off pass close to the building. The noise of their motors has on occasion disturbed the patients. If air traffic were to increase to any considerable extent, this situation would become intolerable for the hospital, stated the directors. The complaint was referred to the industrial committee for report.

Princess Patricia Lodge, Order Daughters of St. George, held a silver tea at the home of Mrs. Christie on Monday evening. A very enjoyable time was spent with games and singing. A bureau scarf was raffled, Mrs. Burkmar being the winner. Those present were Mrs. Jani, Mrs. Christie, Mrs. Burkmar, Mrs. Billings, Mrs. Lang, Mrs. Mothershead, Mrs. Herring, Mrs. Reed, Mrs. Restell, Mrs. Burke, Mrs. Carter, Mrs. Keilman, Mrs. Cameron, Mrs. Ferguson, Mrs. Craigallie. Arrangements were made for a musical evening at the home of Sister Latham, 424 William Street, on Friday, August 30.

## NEW LENS BEING USED IN VICTORIA

H. S. Timberlake, Optometrist, Introduces Orthogon Which Has Fine Features

A new type of spectacle lens developed by Bausch &amp; Lomb Optical Company, of Rochester, N.Y., is expected to revolutionize optical standards throughout the country, according to H. S. Timberlake, of the Victoria Optical Co. of this city, new licensee for this lens. Superiority is claimed over all flat, periscope and toric forms now in use.

Mr. Timberlake states that, unlike previous forms, clear and distinct vision is offered right out to the edge of the lens. In cases where patients have endured eye fatigue and headaches, this new lens will give immediate relief. Leading refractionists have no hesitation in stating that the Orthogon will supersede all other curved forms.

Licenses under the Orthogon plan must qualify under rigid inspection standards set by Bausch &amp; Lomb, the originators of Orthogon.

Mr. Timberlake is now ready to offer patients complete service on this lens.

## Charges Follow Auto Accident

Two charges of driving to the common danger, laid as the result of an automobile collision on Government Street on August 23, were read in City Police Court this morning and the cases remanded until Thursday.

J. A. Griffith pleaded not guilty to the count, while J. L. Raven, through counsel, J. P. Walls, entered a like plea.

## BUREAU TO SHOW APPRECIATION TO ARTHUR BRISBANE

As a token of appreciation for the publicity services he rendered the city through the medium of his column "To-day," Arthur Brisbane, noted columnist, will be the recipient of a volume of pictures of Victoria, the gift of the Victoria and Island Publicity Bureau. At a meeting of the bureau directors to-day, it was decided to forward such a memento to Mr. Brisbane.

## CAPS MEET CHEMALINUS FOR TITLE

Meet Here To-morrow Afternoon in Sudden Death Game for Honors

Norm Forbes and McInnes Will Twirl; Game Will Start at 5 o'clock

Victoria Capitals and Chermalinus will meet to-morrow afternoon at 5 o'clock at the Royal Athletic Park in a sudden-death game to decide the championship of the Vancouver Island Baseball League. The local nine will be defending the title captured last year. Arrangements for the game were completed this morning by league officials at Nanaimo and the Caps were notified at noon to-day.

Last Sunday the Capitals journeyed to Courtenay and after losing the first game to the Up-Islanders, defeated them in the second, which was to decide the championship of the league. The Capitals have a large lead in the deciding series. At the present time Chermalinus have two games to play on their league schedule, but owing to the fact that the Island League champions have to be declared to the British Columbia Amateur Baseball Association by to-morrow night, the Caps have conceded Chermalinus victories in both games.

Out of the four games played this season between the Caps and Chermalinus, the Up-Islanders have captured three, including two Up-Island championships to be declared to the British Columbia Amateur Baseball Association by to-morrow night, the Caps have conceded Chermalinus victories in both games.

The Capitals will send Norman Forbes to the mound with Tommy Bowden or Jack Morgan completing the battery. The remainder of the team will be at full strength. McInnes will twirl for Chermalinus, and so the season's playoffs has given the local team plenty of worry having beaten them three times.

One of the largest crowds of the season is expected to be on hand for the game. The Capitals have a large following and in view of the fact that Chermalinus has provided such tough opposition in the other games, they look for a battle royal.

The winner of this game will oppose the Mainland champions in the finals for the Senior "B" provincial championship at present held by the Caps, who defeated Britannia last year.

## Mooring Buoys Are Needed In Inner Harbor

Need for buoys in the Inner Harbor, at which visiting yachts and launches could be moored, was discussed by the directors of the Victoria and Island Publicity Bureau to-day, following a suggestion from R. H. B. Ker that additional facilities would greatly aid to the number of pleasure craft visiting here during the summer.

In a note to the board, Mr. Ker pointed out that in some cases visiting yachts were forced to leave, owing to lack of mooring space.

The board decided to investigate the question and take it up with Col. A. W. R. Wilby, marine agent, and Capt. George Kirkendale, harbor master.

## ADVISES PLANS BE MADE EARLY

Harry Gowman of Seattle Congratulates Victoria Kiwanis Club

Warmly congratulating the Victoria Kiwanis Club upon the honor of being named as the host city for the 1930 convention of Northwestern District of International Kiwanis, Harry Gowman of Seattle, past district governor, this afternoon at the Empress Hotel suggested that early preparations be made for a large attendance.

He remarked upon the honor accorded Victoria by election of J. M. Diggon as Lieutenant-Governor, and suggested that, if he was accompanied on his official visits to other clubs by a detachment of Victorians, the resultant good feeling would be reflected in a record attendance at the 1930 convention here.

Harold Jones of Portland, district secretary, spoke briefly. Short reviews of the proceedings of the Salem convention were given by Kiwanians H. M. Diggon, Harry Beach, E. J. Eve and Walter Luney.

## J. C. BRADY IS AGAIN CHOSEN AS CANDIDATE

Prince Rupert, Aug. 27.—J. C. Brady, member of the Commons for Skeena, was unanimously chosen to contest the riding as Conservative candidate at the next Dominion election during a party convention here to-day.

## JAILED FOR DRIVING CAR WHEN DRUNK

Hindu Sentenced Following Accident Saturday Night On Bay Street

Pleading guilty on a charge of driving an automobile while intoxicated, Dwan, a Hindu, was sentenced to fourteen days imprisonment in the City Police Court this morning.

The charge against Dwan arose out of a collision between an automobile and a street car, near the intersection of Bay Street and Rock Bay Avenue. Saturday night, Adam Elliott, operator of the street car, said the car driven by the accused had crashed head-on into the vehicle. When he took the Hindu out of the damaged auto, Dwan was dazed. Constable Duncan McPherson testified the accused was intoxicated when police arrived on the scene.

Arising from the same incident, Dwan was charged with driving a car while not being the holder of a driver's license and a fine of \$5 was imposed when he pleaded guilty.

Bagoo, another Hindu, was charged with allowing Dwan to use his driver's license, but the case was dismissed.

## CLUB EXPECTS 15,000 DELEGATES AT CONVENTION

(Continued from page 1)

The Kiwanis Pacific Northwest District embraces the Province of British Columbia and the states of Washington, Oregon and the Idaho panhandle. It is the only international Kiwanis district on the continent. The last occasion on which the Pacific Northwest Conference was held in this city was in 1921. Since then the membership of the district has increased greatly, having almost passed the five thousand mark.

His Diggon pointed out that attendance at the 1930 conference will be at least double that of the previous conference held here, and urged the Kiwanians to make their strongest effort to make the visit memorable. He stated that many of those who will attend the conference have significant intention to spend two weeks seeing Victoria and Vancouver Island.

Mr. Diggon recalled that the Victoria Kiwanis Club made application for the 1930 convention last year, when it was to be held in Victoria. The conference at Aberdeen had with them the

## DAHLIA SHOW SEPTEMBER 4

Large Number of Entries for Second Annual Display Next Week

On September 4 and 5 the Dahlia Society will hold its second fall show in the Armories, Bay Street. The show this year promises to be an even greater success than the last. The members have some very fine blooms to show, quite a number of these being new varieties that have not been exhibited here before. The seedling class is creating great interest and the competition for the best seedling in the show will be very keen.

The American Dahlia Society's two medals will be up for competition as also will the Ontario Dahlia Society's silver and bronze medals. The Seattle Dahlia Society has also offered a cup. The president's (F. V. Hobbs) cup for the best dahlia in the show will draw a lot of entries and the judges' task to decide the winner will not be an easy one.

Entries will be received up to the day of the show by W. B. Christopher, secretary, at Fox's Cutlery Store, View Street.

All members and any others interested are asked to attend a meeting to-morrow evening at 8 o'clock in the Y.M.C.A. to make final arrangements for the show.

## WHITNEY LETTER

(By Branson, Brown &amp; Co. Limited)

New York, Aug. 27.—Whitney of the Wall Street Financial Service to-day says:

### RAILS TO BE FEATURED AGAIN

"The selling which came into the market in the last hour, I believe, was entirely traceable to the same cause which brought about a similar tendency at the close of the week, this simply being that many issues have advanced so radically in the period of a little over two weeks since the raising of the red discount rate, that the temptation to cash profits has been hard to resist. In so far as yesterday is concerned, this profit taking has simply used up some of the tendency for Tuesday reaction which would normally appear to-day."

"Incidentally we have approached the month end by one more day in which call money showed no tendency to stiffen, and with only a few sessions left I think we are going to be able to refer back to this particular month end as perhaps the easiest we have passed through in a year or so, what is probably of greatest importance in the immediate outlook is the outstanding performance given by a considerable number of the rails which resumed their advance yesterday. I look for the balance of the group to join in to-day and the group, as a unit, to feature the market in the course of the next few days. Behind them, look for the oil and copper to provide secondary strength. In the general industrial list, we may possibly have a moderate recession here and there and it has been this thought that has led to the comparatively restricted number of recommendations in that section of the market."

"I expect particularly striking advances this week in Atchafalaya, Union Pacific, Nickel Plate, which is at a new high, but going much higher. Lackawanna, which is still a purchase under 150 for prices beyond 200, New Haven and St. Paul, which has given us its expected new high price, but is still a buy under 95, Erie, which should be bought under 90, for an advance across 100, and Kansas City Southern, which is scheduled for a move to new high records."

"The oils are digesting their rapid rise of last week and will not require much additional time to complete this process and resume their advance. Pan American has duplicated its previous top prior to entering new high territory, and I believe this issue, along with the Standard of New York and New Jersey, constitute the real class of the oil list. They should be purchased during what remains of this period of digestion."

"In the copper, Anaconda has already had enough of a reaction from yesterday's top to warrant new buying. So the commitments in this group consist of this issue along with American Smelting, Kennecott and Miami."

"In the utilities, the only new commitment to be suggested is N.J. Electric and Public Service, N.J. Electric, continue to buy American International, even at its new high price, and likewise, Remington Rand, Wortham and United Pump and Druggists as an additional specialty in the industrials. This latter stock is ready to emerge from its recent accumulation and should be bought in a range between 119-116 for the twenty points, I believe it will make rather quickly."

**Men Return to England From Farm Work in Canada**

Liverpool, Aug. 27 (Canadian Press Cable).—A dozen young Englishmen, who had failed to make their way in Canada, where they went to work on farms, have returned to England. They were met by their parents and relatives at the Liverpool docks. The men had been working on farms in Canada for some time, but had been unable to find permanent employment. the subject of favorable reports as practically all the stocks in the low holds have been among the bull leaders of recent months.

"Those interested in General Foods are preparing a comprehensive survey of their properties in Hudson and Manhattan."

MIRROR ADVICE 27.—The Wall Street Mirror to-day sent the following to its clients: "With the industrial group running into some selling, the rails are being forward marked to keep the market boiling. There is every reason for further advance in the rail shares."

The carriers are enjoying excellent earnings, and aside from these, there are always reserve possibilities. Those who have been buying the high priced issues are absolutely confident of higher prices and can see no reason for any sustained selling movement.

"Technical readjustments, however, may always have to be reckoned with, but these do not last long."

"Stay long in the high grade issues, but by all means do not over-trade."

"Among the rails which give every prospect of advancing further in Chicago and Northwestern, Union Pacific is a large holder of Northwestern, having added to holdings within the past year, and a merger would most assuredly throw together Union and Northwestern. In addition to this, stockholders are in line for increased dividends."

"New Haven directors are scheduled to meet to-day for dividend action. The stock is selling at 150 this week. Stay long on Montgomery Ward."

"The group making the market in Remington Rand is talking much higher prices for the stock. In some quarters there are rumors of a merger with Underwood Elliott."

"The rails, however, maintained a distinctly buoyant tendency, assisted by the currency requirements of the month-end settlements, with the result that the call money rate rose."

Despite continuation of the reaction of a number of issues in the industrial section of the list, the rails continued to operate against the trend."

Pennsylvania moved to a new high price level, and the prospect of additional rights to shareholders in the near future."

Following a firmer tone developing around noon throughout the list, selling was resumed in the afternoon. Reactionary tendencies being assisted by reports that the Hague Conference was likely to end in a disagreement."

But it was noticeable that strong support was met by pivotal stocks on all setbacks."

Austin Nichols was a feature of the low priced class, is rising to be level of the year. Recent strength in the stock has reflected progress in improving the company's financial position."

Still another two-cent rise in the price of eggs per dozen has been registered on the wholesale and retail markets. Eggs are now selling to the trade at forty-five, forty-three and thirty-eight cents per dozen for extras, firsts and pullets extras, respectively, while the same grades are retailing at fifty, forty-eight and forty-six cents, respectively."

Large California Libbers, king of all grapes, arrived on the market this week and will doubtless grace the tables of Victoria homes in considerable quantities. This fruit came into the market from California. From the same state came fresh figs and lemons. The latter are bringing a high price in the city, as the supply is very limited. California. Last week the southern source was able to ship only two carloads to British Columbia. Remains high in price, as this fruit is now suffering from a season's scarcity. The California fruit is rapidly going off the market, while the Okanagan produce has not yet reached the city."

Utilities doing well.

New York, Aug. 27.—The Herald-Tribune says that earnings of public utilities continue to show large increases. Reporting as groups, the telephone and telegraph companies, water companies and power and light utilities all show the improvement. Methods of operation and lower costs for the new financing through control by holding companies."

PROFIT FOR ST. JOE LEAD

New York, Aug. 27.—The New York American to-day says:

"The mining of St. Joseph Lead is influenced by brokerage advice telling of the prospect for a further increase in the price of the metal, with each cent advance adding about \$2.50 per share to earnings power."

BOOTS AND HER BUDDIES—Not a Bad Idea

TUESDAY, AUGUST 27

Doreen Eleanor Dalziel, 474 Garbally Road, Victoria, B.C. (1).

Little Girl Learned Pride in her Speech

Sophia Smith loved to study. In the evenings she sat close beside her mother, as the family gathered about the big oil lamp in the living-room, and read and asked questions.

In the days of Sophia's girlhood it wasn't thought worthwhile to send girls to school as much as boys. Boys had a full school term, while girls were taught for only four or five months of the year. Ambitious girls had to do a large share of their learning by studying with their brothers or parents at home.

Besides liking to study, Sophia liked to wear nice clothes. She wasn't vain, but she was very particular about not having spots on her frocks and keeping her shoes shining. She could mend and sew skilfully.

She was a lively girl and played with the boys, as well as the girls, of the neighborhood. From them she sometimes learned slang words. One evening, as she was talking to her mother, one of her newly learned slang words slipped off her tongue.

Her mother raised her eyebrows in surprise. Then she talked to her about being careful to use good English. "You wouldn't go to church with a hole in your frock, would you?" She asked.

Sophia shook her head, wondering what her mother meant.

"Slang," explained the mother, "is like spoiled and shabby clothes. You should be proud to wear only finely dressed thoughts."

Sophia never forgot her mother's words. All her life she had a great interest in education, and founded Smith College, a leading women's college in the United States. She was born on August 27, 1796.

BEDTIME STORY

Uncle Wiggly's Buttercup

Copyright, 1929, by McClure Newspaper Syndicate.

By HOWARD R. GARIS

Once upon a time, when all the little rabbit boys and girls of Uncle Wiggly had gone on a picnic to the woods with the Lady Mouse Teacher from the Hollow Stump School, Nurse Jane Fuzzy Wuzzy said:

"Uncle Wiggly, let's you and I and your wife go on a picnic by ourselves." "That would be fun," spoke the rabbit gentleman. "Just us three. Of course it would be more jolly if we had gone with the children, but perhaps they'll have a better time without us."

"I think so," said Mrs. Longears, looking in the glass to see if she had her diamond ring on straight. She wore the ring on her ear, as I have told you. "And we three will take our lunch and stay all day under the trees," she went on.

"Oh, ho! Lunch! That will be fine!" cried Uncle Wiggly, dancing about on one leg. "I didn't think we were going to have any lunch!"

"Oh, I forgot to butter the bread!"

"What kind of a picnic would it be without lunch?" asked the muskrat lady in her funny, squeaking voice. "You are going to have a grand picnic lunch, Mr. Longears!"

"How about some carrot sandwiches?" he asked.

"You shall have them," promised his wife.

"And cabbage short cake?"

"I'll look after that," promised Nurse Jane, switching her tail around quickly to shake off a fly who was trying to get a free ride to the picnic.

"Oh, hurry! What fun we're going to have!" sang Uncle Wiggly.

He waited until his wife and Nurse Jane began to put up a lunch for the three who were going to the woods. Then Mr. Longears said:

"Don't forget to put plenty of butter on the bread that you make my carrot sandwiches of, my dear."

"I'll remember," promised his wife.

A little later, off the three started for the trees that grew on the side of the Orange Ice Mountains. For where trees grow there woods are to be found. And the best place for a picnic is the woods. Or, perhaps, the seashore. But this time Uncle Wiggly went to the woods.

Along the paths under the trees he walked with Nurse Jane and his wife, and pretty soon they came to a pretty little dingy dell.

"What a lovely place to eat our picnic!" "oh," cried Mrs. Longears.

"Isn't it?" said Nurse Jane.

"Ho for the dingy dell!" exclaimed Uncle Wiggly. "Ho! Ho!"

I might tell those who don't already know, that a dingy dell is a little place in the woods where the trees grow in a circle around some grass and there are bushes and ferns and a little brook of bubbling water and a

To-morrow's Horoscope

WEDNESDAY, AUGUST 28, 1929

Benefic aspects dominate to-day, according to astrology, which reads in the horoscope promise of much success in many earth activities.

This is a day especially favorable to intellectual work and should be stimulating to judges, writers, speakers and organizers in any line of work.

Schools and colleges come under a sway making for sweeping reforms in policy and improvement in curricula.

Manners as well as brains will be analyzed in accepting students in many institutions. It is foretold.

The planetary government promises a tremendous reform wave that will roll over the nation with salutary effect, for it will reach the American spirit and inspire the right sort of changes in modern behavior.

There is a sign of much promise for all monetary transactions while this configuration continues. Banks will be inclined to aid business progress even in small beginnings, it is foretold.

Heads of homes as well as heads of commercial houses should benefit at this time when wishes become laws under the friendly rule of the stars.

The lunation of September 3 is to preface great benefits for all classes of workers, astrologers foretell. Workers will receive political as well as pecuniary recognition in the coming months.

Women are to gain in public efforts and to receive new honors, it is prophesied.

All the signs seem to promise tremendous achievements for women in public life. They will reach supreme honors in legislative halls and will gain cabinet positions, the seers prognosticate.

Persons whose birthdate it is have the augury of a prosperous year. Many will reap the results of long waiting and working.

Children born on this day probably will be extraordinarily fortunate all through their lives. The subjects of this sign may be endowed with remarkable personalities and rare talents.

Johann Wolfgang Goethe, German author, was born on this day, 1749. Edward Burn-Jones, 1833, famous painter; Ira D. Sankey, 1840, American evangelist; Rufus Fairchild Zoetman, 1849, artist, also claimed this as a birthday.

flat stump for a table. All this was in the dingy dell and it made the place just right for a picnic.

"Now," said Uncle Wiggly to his wife and Nurse Jane, "I'll go off and look for an adventure. You sit here in the dingy dell and rest yourselves, for you are tired from putting up the lunch. When I come back we shall eat."

"All right," agreed Mrs. Longears. Off through the woods hopped Uncle Wiggly. He didn't have very much of an adventure. But he met a Lady Bug who had fallen into the brook; so Uncle Wiggly fished her out on the end of his red, white and blue striped rheumatism crutch and put her in the sun to dry her red spotted wings.

"Oh, thank you," buzzed the Lady Bug.

Now while Uncle Wiggly was gone adventuring, his wife and Nurse Jane opened the lunch basket. They began to set out on the stump table the sandwiches and other good things to eat. All of a sudden Mrs. Longears looked between the slices of bread that made the carrot sandwiches and she exclaimed:

"Oh, I forgot to butter the bread!"

"Oh, Wiggly so loves butter!" What shall I do?"

"I'll skip back to the bungalow and get some butter," offered Nurse Jane. "No, there won't be time!" sighed Mrs. Longears. "Oh, what shall I do? No butter on his bread and he specially asked me to make it thick!"

"I'll tell you what to do," suddenly burst a big bumble bee. "In the field near here are lots of buttercups. Buttercups are flowers a yellow as butter. Pick some buttercups, put their yellow petals on the bread and eat the sandwiches he said."

"They are the best I ever tasted. What lovely, sweet butter!"

"Ha! A good idea!" squeaked Nurse Jane.

Chirp and Mrs. Longears quickly picked some buttercup flowers and out their bright, yellow petals on the rabbit's bread. And when he came back and ate the sandwiches he said:

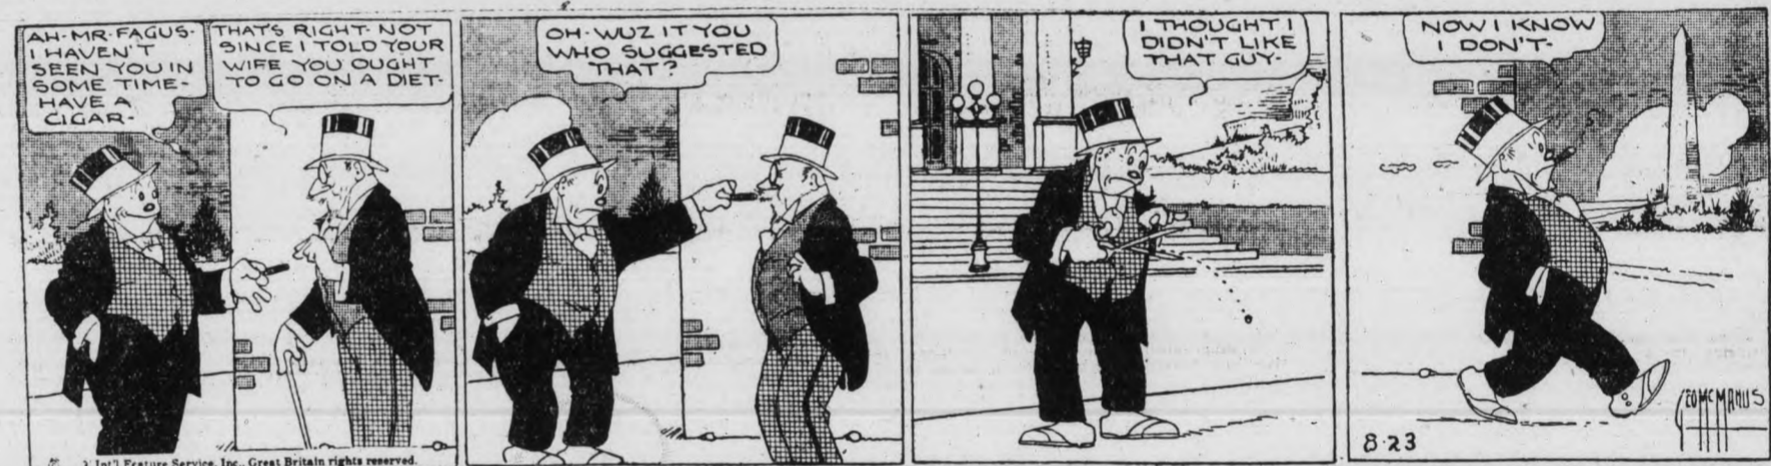

"They are the best I ever tasted. What lovely, sweet butter!"

Nurse Jane and Mrs. Longears looked at each other and tried not to laugh. But they thought it was very funny.

## Around the Docks

Aboard the O.S.K. liner Alabama Maru, due here from the Orient September 3, are eighty-one passengers in both classes. Of these five first cabin and six staterooms are for Victoria, while twenty-three first and forty-seven staterooms will go on to Seattle. For Victoria the ship has about 100 tons of cargo. Seattle cargo is made up of 3,800 tons, including 4,000 bales of raw silk and twenty tons of silk goods.

Bound for Victoria and Seattle, the Pacific Steamship Company's coastal passenger liner Emma Alexander sailed from San Francisco this afternoon at 5 o'clock. She will arrive here on Thursday night.

With 1,800 tons of cargo from the freighter Golden Forest, the freighter El Cedro is now proceeding from Akutan Harbor, in the Aleutian Islands, to Seattle. She is expected in the Sound port about the end of the week.

Twelve hours ahead of schedule, the Blue Funnel liner Ixion docked at the Rutherford pier last night at midnight, returning from ports in China and Japan. For Victoria the ship had fifty tons of cargo and twenty-nine passengers. Included in the Vancouver cargo were 3,400 bales of raw silk.

The C.P.R. steamer Princess Alice arrived in port this morning after completing her last excursion trip of the year to Alaska. The Alice will be used on the night and triangular runs during the fall and winter months.

Outbound to ports in China and Japan, the O.S.K. liner Africa Maru was here for a short time this afternoon with a capacity cargo and a fair passenger list. She arrived from Seattle at 4 o'clock and was to put to sea as soon as local passengers, cargo and mails were aboard.

The last excursion trip of the year to Seattle will be made on Thursday of this week by the steamer Princess Patricia. The "Pat" will leave the Belleville Street docks at 8:30 and on the return trip will leave Seattle at 5:30 o'clock, arriving here five hours later.

After loading 1,300,000 feet of Vancouver Island timber at the Ogden Point piers, the Norwegian motorship Bronny is expected to clear tonight for Sydney, Australia. She has been in port since Saturday midnight.

The Royal Mail Steam Packet freighter Netherby is expected to pass Victoria during the night bound for

## NO MORE PILES

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and salves can't do this. An internal remedy must be used. Dr. Leonard's Hem-Roid, a harmless tablet, succeeds, because it relieves this blood congestion and strengthens the affected parts. Hem-Roid has a wonderful record for quick, safe and lasting relief to pile sufferers. It will do the same for you or money back. MacFarlane Drug Co., Vancouver Drug Co., and druggists anywhere sell Hem-Roid with this guarantee.

## KAYAK MAKING LONG VOYAGE

Walrus, Hide, Eskimo, Boat En-route From Juneau To New York

Pender Harbor, Aug. 26.—In a walrus hide Eskimo kayak, Albert Voight is coming down coast on a voyage from Juneau, Alaska, to New York. Voight's craft is sixteen feet long. He is a resident of Los Angeles, and has undertaken the voyage to prove the seaworthiness of the kayak. Very little provisions are carried, as he has been making the voyage by easy stages from port to port.

He left Juneau on June 27, and expects to reach Vancouver late this week and will spend several days here. Then he will proceed to Seattle. He plans to arrive at New York next June. Voight intends to walk across the isthmus of Panama packing his canoe on his shoulders if the Panama Canal authorities desire to charge him canal dues for using the water route to the Atlantic.

## New Submarine Life-saving Tests Declared Success

Spezia, Italy, Aug. 27.—Ten men emerged from the sunken submarine F-17 in forty-eight seconds during a submarine experiment here, making what is claimed a world record for such a feat.

The experiment was carried out by the Government in its efforts to prevent serious loss of life in submarine disasters.

Twelve of the participants used headpieces, while the others were not especially equipped. The submarine carried a new device consisting of a large oval beneath a torpedo tube, permitting the men to leave the submarine without water entering it.

Vancouver. In her refrigerator holds the ship has 500 tons of fresh grapes and other soft fruits for the Orient. The fruit will be transferred in Vancouver to the holds of the Empress of France, which will sail for the Far East on Thursday.

Outbound to China, Japan and the Philippine Islands, the Canadian Pacific liner Empress of France will sail from here on Thursday. She will arrive from Vancouver about 5 o'clock and will sail for Yokohama about two hours later.

The Ss. Dorothy Alexander will be here on her next excursion trip to Alaska on Friday of this week. After this trip she has only one more to make, which calls for her sailing from Seattle and Victoria on Monday, September 9.

The motorship Lyca is expected at the Ogden Point piers to-morrow morning to commence loading 300,000 feet of Vancouver Island timber for the West Indies.

The Japanese freighter Yahiko Maru at present loading a lumber cargo for Japanese ports at Chemainus. She will finish loading on the mainland before sailing for the Orient.

The Blue Funnel liner Talthybius passed Victoria early this afternoon outbound for the Orient. There were not sufficient passengers here to have the ship docked. Capt. J. J. Gosses, formerly of Victoria, brought the ship from Vancouver.

Advice from T. W. Allen, aboard the steamer Salvage King, stated that the disabled freighter Golden Forest expected to leave Akutan Harbor for Seattle towards the end of the week. The King will convey the big ship, and will take the Inside Passage in order to avoid the storms on the open Pacific.

## C. N. Vessel Is Loading Liquor Cargo

Over 4,000 Cases Seized Five Years Ago by Customs Being Sent East

Canadian Ranger and Canadian Observer Due Here To-morrow and Thursday

Loading a miscellaneous cargo, including 4,201 cases of liquor which have been stored in Victoria for more than five years, the Canadian National freighter Canadian Prospector is today at the Ogden Point pier. She will leave to-night for Port Alberni, and after loading lumber there will sail for Montreal, Quebec and Three Rivers. The liquor which the Prospector is loading here is the cargo which was seized by the customs five years ago last February from the steamer Ardenza, which arrived here at that time without any papers. She was held in the Royal Roads for several days awaiting orders from Ottawa to let her dock here. After permission was given she was placed at Yarrow's Limited for repairs and the liquor seizure subsequently made.

The liquor is now destined to the French Islands of St. Pierre and Miquelon, in the Gulf of St. Lawrence. The Prospector will unload it at Montreal and from there it will be transhipped to the Islands.

The Canadian Ranger, of the same fleet, is expected here some time to-morrow with 175 tons of cargo from Montreal, Quebec and Three Rivers. She will berth at the Ogden Point, and after discharging her local cargo will proceed to Vancouver.

It will be Thursday before the coastal freighter Canadian Observer, due here from California ports, the local office was advised this morning. For discharge at the Ogden Point piers the Observer has seventy-five tons of California cargo.

## GREATEST YEAR OF TRAVEL YET

So Says C.P.R. Traffic Manager In Speaking of Heavy Movement of Tourists

Vancouver, Aug. 27.—"Probably the greatest tourist season in the history of Western Canada," is how C. E. McPherson, Winnipeg, assistant passenger traffic manager of the Canadian Pacific Railway, describes the influx of summer visitors to Canada.

"Traffic to the Pacific Coast and mountain resorts of the company has been with out precedent," he said here to-day, "and travel to Alaska, the West Coast of Vancouver Island and over other steamship routes along the coast has broken all records."

More Americans than ever before in one season have visited Canada this year but added to the heavy United States influx has been a heavier volume of travel by British and Eastern Canadian tourists. Mr. McPherson said. The Transcanada Limited trains and the Mountaineer, traveling from Vancouver to Chicago, have been extremely popular, being booked solid for every trip.

The Japanese freighter Yahiko Maru at present loading a lumber cargo for Japanese ports at Chemainus. She will finish loading on the mainland before sailing for the Orient.

## WILL BE OVERHAULED FOR VICTORIA SERVICE

which is now on her last trip from San Francisco to Japan. After completing her itinerary in the Orient she will be drydocked for a general overhaul preparatory to entering the north Pacific service between Victoria, Seattle and the Orient. She will arrive here on her first trip December 11, and will sail on Christmas Day.

## OAXACA NOW SEIZED VESSEL WILL BE SOLD

U.S. Fishing Schooner Katharine B. Seized Off West Coast for Sale on 31st

Seattle, Aug. 27.—The Seattle fishing vessel, Katharine B., which was seized on May 29 on her first trip to a charge of illegal fishing in Canadian waters, off Rose Spit, Dixon Entrance, will be sold by the Canadian Government in Prince Rupert, B.C., August 31, Wilbur E. Dow, customs broker, was advised here yesterday.

The vessel, built at Seattle in 1912 and launched as the Alaska, had an adventurous history. She was fifty-six feet long, and stoutly constructed of wood. When Vilhjalmur Stefansson undertook to drift across the North Pole some years ago he chartered the Alaska for the attempt. This expedition was caught in a Siberian polar drift and ended on the shores of Siberia. The vessel was later brought out, and in 1922-23 was bought by Canadians. Recently she was chartered out as a fish carrier.

The Katharine B. was owned by Capt. Lurwig Thordmøster of Seattle, and is a new vessel, having been launched only a month before the seizure.

## ROYAL HORSES IN EXHIBITION

Eighteen Animals From Prince Of Wales's Ranch in Devon Arrive In Canada

Montreal, Aug. 27.—Eighteen horses, including two from the Prince of Wales's stud farm in Devon, were among the arrivals in Montreal Saturday evening by the Canadian Pacific liner Minnedosa. The Prince of Wales's Arab stallion Aldebaran, and a Clydesdale stallion recently purchased by His Royal Highness, are being shipped to the Toronto exhibition, and afterwards will be sent to the E. P. Ranch at High River, Alberta.

A good voyage was reported by Captain D. M. Baird, assistant manager of the Prince's stud farm at Tor Royal, Devonshire, who is accompanying the blood stock to Toronto and High River. Although at times the ocean was a trifle playful, no ill effects were experienced by the animals, all of the eighteen on board arriving in the best of condition. The Prince's two horses in company with five belonging to J. Torrance of Markham, Ontario, left Montreal Saturday evening on the C.P.R.

## SAN FRANCISCO SHIPPING

San Francisco, Aug. 7.—The liner President Hayes which heretofore has been engaged in the Dollar Line's round-the-world service, is due to arrive here Thursday and sail on September 3 in the company's new direct service to Manila. The President Monroe, which is also to be taken over by the Dollar Line, will follow the President Hayes in the new run. Withdrawal of the two vessels from the round-the-world service will not affect the sailing schedule of the world girdlers as the President John and President Fillmore will fill the gap. The President Fillmore, now on the Dollar Line, will be taken over by the Dollar Company in time to take her place in the schedule.

With the settlement of the inter-coastal conference differences in New York last week, the Lumber Steamship Company has joined the Weighing and Inspection Bureau recently established by the conference on the Pacific Coast. The bureau is not functioning with all members of the conference, and increased inspection forces are expected to be added to the bureau both here and at Los Angeles.
